Wood, Ronald Schusterman, 2013-04-15 Published in 1986 Dolphin Cognition and Behavior is a valuable contribution to the field of Cognitive Psychology Dolphin Communication and Cognition Denise L. Herzing, Christine M. Johnson, 2023-10-31 Experts survey the latest research on dolphin communication and cognition offering a comprehensive reference to findings in the laboratory and from the field Dolphin researchers have collected an impressive amount of data over the last twenty years thanks to advances in technology for monitoring recording and analyzing dolphin behavior as well as increasing interest in exploring and modeling dolphins cognitive capacities This volume offers a comprehensive reference to the latest research on dolphin communication and cognition reporting on findings from both the laboratory and the field The contributors review a wide range of topics including vocalization abstract reasoning abilities imitation and learning social cognition echolocation and ethical issues in working with cetaceans The book begins by examining the dolphin brain and its evolution the anatomy of its unique sound production and reception systems and its sensory abilities It next treats communication reviewing the complexity of dolphins vocalization and then describes research on cognition from both experimental and developmental perspectives Finally the book considers the future of dolphin research including a series of provocative questions that remain unanswered posed by the volume s expert contributors Contributors Mats Amundin Whitlow Au Ted W Cranford Nicola Erdsack John Ford Wolf Hanke Louis M Herman Denise L Herzing Christine M Johnson Petr Krysl Stan Kuczaj Marc Lammers Lori Marino Paul Nachtigall Julie Oswald Adam A Pack Heidi Pearson Sam Ridgway Jeanette Thomas Randall Wells Thomas I White Hal Whitehead Kelley Winship Bernd Würsig **Are Dolphins Really Smart?** Justin Gregg, 2013-09-26 How intelligent are dolphins Is their communication system really as complex as human language And are they as friendly and peaceful as they are made out to be The Western world has had an enduring love affair with dolphins since the early 1960s with fanciful claims of their healing powers and super intelligence Myths and pseudoscience abound on the subject Justin Gregg weighs up the claims made about dolphin intelligence and separates scientific fact from fiction He puts our knowledge about dolphin behaviour and intelligence into perspective with comparisons to scientific studies of other animals especially the crow family and great apes He gives fascinating accounts of the challenges of testing what an animal with flippers and no facial expressions might be animal behaviour Gregg challenges many of the widespread beliefs about dolphins while also inspiring the reader with the remarkable abilities common to many of the less glamorized animals around us such as chickens

Sensory Abilities of Cetaceans Jeanette A. Thomas,Ronald A. Kastelein,2013-11-11 This book evolved through the efforts of several organizations and the dedication of many individuals In 1987 we received arequest to propose a workshop topic for the Fifth International Theriological Congress ITC to be held in August 1989 in Rome Italy After looking up the meaning of the word theriological in the dictionary and discovering that it pertains to mammalian behavior we decided a symposium on sensory abilities of whales and dOlphins would be an interesting topic The ITC convenes only every five years and has the distinction of being very well attended by scientists from around the world We thought that hosting a workshop in conjunction with the ITC would attract a variety of international scientists that rarely have the opportunity to interact Fortunately for all involved our prediction was correct The first two days of the workshop 23 24 August 1989 were held in conjunction with ITC and the nearly 1 000 attending scientists were able to view our posters and listen to lectures The third day was limited to only ab out 65 invited scientists who were divided into topical working groups chaired by a rapporteur
