Domestic Objects Past And Presence:

The Cultural Lives of Domestic Objects in Late Antiquity Jo Stoner, 2019-03-19 In this study Jo Stoner investigates the role of domestic material culture in Late Antiquity Using archaeological visual and textual evidence from across the Roman Empire the personal meanings of late antique possessions are revealed through reference to theoretical approaches including object biography Heirlooms souvenirs and gift objects are discussed in terms of sentimental value before the book culminates in a case study reassessing baskets as an artefact type This volume succeeds in demonstrating personal scales of value for artefacts moving away from the focus on economic and social status that dominate studies in this field It thus represents a new interpretation of domestic material culture from Late Antiquity revealing how objects transformed houses into homes during this period *Marriage in Past, Present and Future Tense* Janet Carsten, Hsiao-Chiao Chiu, Siobhan Magee i, Eirini Papadaki, Koreen M. Reece, 2021-09-01 Marriage globally is undergoing profound change provoking widespread public comment and concern Through the close ethnographic examination of case studies drawn from Africa Asia Europe and North America Marriage in Past Present and Future Tense places new and changing forms of marriage in comparative perspective as a transforming and also transformative social institution In conditions of widespread socio political inequality and instability how are the personal the familial and the political co produced How do marriages encapsulate the ways in which memories of past lives present experience and imaginaries of the future are articulated Exploring the ways that marriage draws together and distinguishes history and biography ritual and law economy and politics in intimate family life this volume examines how familial and personal relations and the ethical judgements they enfold inform and configure social transformation Contexts that have been partly shaped through civil wars cold war and colonialism as well as other forms of violent socio political rupture offer especially apt opportunities for tracing the interplay between marriage and politics But rather than taking intimate family life and gendered practice as simply responsive to wider socio political forces this work explores how marriage may also create social change Contributors consider the ways in which marital practice traverses the domains of politics economics and religion while marking a key site where the work of linking and distinguishing those domains is undertaken **London, Past and Present** Henry Benjamin Wheatley, 1891 Based upon the Handbook of London by the late Peter Cunningham *Cosmology - The Past, Present and Future of the Universe* Herman J. Mosquera Cuesta, Kim Ho Yeap, 2024-10-30 Cosmology the science of all that exists in the universe is an interdisciplinary field that seeks to understand the fundamental nature of the universe that is how it evolved from its primordial stages including the Big Bang to its present state and its potential future This quest is driven by centuries of astronomical observations and advanced physical theories The growing number of ground based observatories space based satellites and cutting edge tools like the Hubble Space Telescope the James Webb Space Telescope and gravitational wave observatories allow us to look back to the very early stages of our expanding universe offering unprecedented insights This

book addresses several important cosmological issues including humanity's enduring search for other advanced civilizations in the cosmos. It highlights the importance of such cosmic exploration and provides a comprehensive understanding of the concept of spacetime within the framework of general relativity. The book introduces a cosmological model that incorporates an evolving curvature term within the standard model of cosmology and presents arguments in favor of a rotating universe exploring the associated mechanisms of how light and matter could escape from a Kerr black hole. In addition, it delves into modern efforts by cosmologists to uncover the actual shape of the universe's topology using the latest data. Finally, the book examines the critical role of quantum field theory in helping theorists build an increasingly robust picture of the cosmos. The editors hope that this scientifically rich and enlightening volume will engage readers and inspire further exploration into the mysteries of the universe.

Dwelling Orsolya Katalin Petőcz, Naomi Segal, 2024-07-15 *Dwelling* is both an action and a location; it combines the spatial idea of habitation (dwelling in) with the temporal idea of lingering (dwelling on). We live not only in bricks and mortar, a tent, a hut, or a spaceship, but also in that most changeable of forms, our body, or in a remembered or virtual home. Especially since COVID-19, we have seen changes in the topography of everyday life. In this multi-disciplinary collection, a complex of meanings is approached from a variety of specific, often personal angles. Framed by two longer essays which theorise how the psychology of home may change under sudden pressure and how social relations are embodied in windows, doors, walls, and stairs, the book includes 18 further essays. Part I, *Informal settlements*, shows how a slum, urban development, or nomadic life may create a self-sustaining identity. In Part II, *Huts and bridges*, impermanence shapes the state of dwelling, while Part III, *Liminal bodies*, presents bodies suspended at thresholds of change. Movement in time and space characterises the last three sections. Part IV, *Moving home*, depicts transitions and arrivals. Part V, *Dwelling in Memory*, focuses on recollections of past places, and Part VI, *Are we there yet?*, points the way to a future in which the consulting room changes to 2D: a family is exiled onto the small screen, or we imagine breaking away altogether into outer space.

Staged Properties in Early Modern English Drama Jonathan Gil Harris, Natasha Korda, 2006-11-23 This collection of essays explores the material, economic, and dramatic implications of stage properties in early modern English drama. The essays in this volume, written by a team of distinguished scholars in the field, offer valuable insights and historical evidence concerning the forms of production, circulation, and exchange that brought such diverse properties as sacred garments, household furnishings, pawned objects, and even false beards onto the stage.

The Objects That Remain Laura Levitt, 2020-09-28 On a November evening in 1989, Laura Levitt was raped in her own bed. Her landlord heard the assault taking place and called 911, but the police arrived too late to apprehend Laura's attacker. When they left, investigators took items with them: a pair of

sweatpants the bedclothes and a rape exam was performed at the hospital However this evidence was never processed Decades later Laura returns to these objects viewing them not as clues that will lead to the identification of her assailant but rather as a means of engaging traumatic legacies writ large The Objects That Remain is equal parts personal memoir and fascinating examination of the ways in which the material remains of violent crimes inform our experience of and thinking about trauma and loss Considering artifacts in the United States Holocaust Memorial Museum and evidence in police storage facilities across the country Laura s story moves between intimate trauma the story of an unsolved rape and genocide Throughout she asks what it might mean to do justice to these violent pasts outside the juridical system or through historical empiricism which are the dominant ways in which we think about evidence from violent crimes and other highly traumatic events Over the course of her investigation the author reveals how these objects that remain and the stories that surround them enable forms of intimacy In this way she models for us a different kind of reckoning where justice is an animating process of telling and holding

Sculptors at UC Davis, Past and Present ,1982 Object Medleys Daisy Pillay,Kathleen Pithouse-Morgan,Inbanathan Naicker,2017-11-13 How do we get at the meanings of everyday and not so everyday objects and how might these meanings enrich educational research The study of objects is well established in fields such as archaeology art history communications fine arts museum studies and sociology but is still developing in education Object Medleys Interpretive Possibilities for Educational Research brings together 37 educational researchers from wide ranging contexts and multiple knowledge fields to a dialogic space in which subjects and objects living and nonliving entangle as medleys to open up understandings of connections made with between and through objects Object Medleys offers diverse innovative modes and lenses for representing interpreting and theorising object studies The book is distinctive within scholarship on object inquiry in that much of the research has been conducted within Southern African educational contexts This is complemented by contributions from scholars based in Canada and the United Kingdom The original research represented in each peer reviewed chapter expands academic conversations about what counts as data and analysis in educational research Overall Object Medleys illuminates the applied and theoretical usefulness of objects in response to pressing educational and societal questions Object Medleys is a rich and fascinating exploration of new possibilities with potential for research teaching and learning that seems almost unlimited This book is a rich assembly of affordances for exploring and widening the role of objects in educational research It relocates attention from language and text towards embodied and material storytelling practices where new and marginalised ways of expression can find their ways into classrooms thereby opening completely new avenues of teaching and learning Kenneth M lbjerg J rgensen Professor Aalborg University Denmark In a time when materiality is being brought at the centre of critical inquiry in the social sciences and humanities this edited collection offers unique insights into the relationship between objects subjectivities and learning Beautifully written and cogently argued the book breaks new ground by casting a critical spotlight on artefacts that might

appear mundane at first sight but on closer inspection reveal complex patterns of educational potential Tommaso M Milani Associate Professor University of the Witwatersrand Johannesburg South Africa
