Dominguez Air Meet:

The 1910 Los Angeles International Air Meet Kenneth E. Pauley, 2009 America's first international air meet was held January 10-20, 1910 in Los Angeles on a mesa called Dominguez Hill situated 13.5 miles south of the plaza at the pueblo of Los Angeles. Enthusiasm for aviation grew after the first international air meet in 1909 in Rheims, France, where American aviator Glenn H. Curtiss won three prestigious speed prizes and 36,000 francs. An even more spectacular air meet which would also invigorate the local economy was promoted for Los Angeles by businessman Dick Ferris, the Los Angeles Merchants and Manufacturers Association, and the Los Angeles Examiner, collaborating to make it possible. Most Americans had never seen the newfangled machines that soared in the skies. Initially skeptical, they soon were awed. So began America's love affair with aviation. The air meet influenced aviation in Southern California and transportation worldwide into the 21st century.

Dominguez Air Meet David Daniel Hatfield, 1976 Ragwings Over The Sacramento River Allen Herr, Kathe Herr, 2020-10-18 Historical accounts of the first successful flight in California's capital city and other notable Northern California flights that followed over three decades, the courageous aviators and development of long forgotten airports from which they flew. Among them is the story of aviatrix Blanche Stuart Scott's 1912 flights and Sac Muni female pilots twenty years later. Included is the first accurate history of early ag flying in the north state, revolutionizing the farmers. This is part of a three-book series on Northern California's aviation history, 1909-1939. **1910 Los Angeles International Aviation Meet** Kenneth E. Soaring Skyward Claudine Burnett, 2011-11-04 Flying was a perilous adventure with death only a small breath away. Many lost their lives in pursuit of their dream and have remained relatively forgotten until now. Italics until now. Aviation fever struck young and old alike, especially after the four Dominguez Air Meets held in Southern California between 1910-1913. It inspired many such as the Birnie and French brothers, Charles Day, and Glenn Martin to build their own airships. For others like Frank Champion Long Beach's first airman, it meant learning from the best, traveling to London, England, to study with Louis Bleriot and going on to teach others such as Long Beach Airport founder Earl Daugherty to fly. There were also daring women, Tiny and Ethel Broadwick, who parachuted out of airplanes when many men refused to do so because they

considered it too dangerous Gladys O'Donnell instrumental in founding the Womens Air Derby World War II ferrying pilots led by Barbara Erickson London whose service to America was not recognized until 1977 Dianna Bixby and Joan Merriam Smith trying to complete Amelia Earharts dream of circumnavigating the globe *Soaring Skyward* italics for title introduces remarkable men and women who embraced the dangers and challenges of flight It also tells the story of the Long Beach Municipal Airport the center of much of Southern Californias aviation history The early days of ballooning air circuses parachute jumps barnstorming air meets forgotten military sites and much more are all explored in this well documented look into the past and future of aviation in Southern California After twenty years of extensive research Ms Burnetts book is sure to open up new sources of information for aviation and history enthusiasts and most definitely shed additional light on the past

Flying Adventurers David K. Vaughan, 2023-05-24 Aviation books were a unique and prolific subgenre of American juvenile literature from the early to mid 20th century drawing upon the nation's intensifying interest The first books of this type Harry L. Sayler's series *Airship Boys* appeared shortly after the Wright brothers first successful flight in 1909 Following Charles Lindbergh's solo flight across the Atlantic popular series like Ted Scott and Andy Lane established the golden age of juvenile aviation literature This work examines the 375 juvenile aviation series titles published between 1909 and 1964 It weaves together several thematic threads including the placement of aviation narratives within the context of major historical events the technical accuracy in depictions of flying machines and the ways in which characters reflected the culture of their eras Three appendices provide publication data for each series a list of referenced aircraft and an annotated bibliography there is a full index
