Elena Russo, 2007-01-19 Styles of Enlightenment argues that alongside its democratic ideals and its efforts to create a unified public sphere the Enlightenment also displayed a tendency to erect rigid barriers when it came to matters of style and artistic expression The French philosophes tackled the issue of the hierarchy of genres with surprising inflexibility and they looked down on those forms of art that they saw as commercial popular and merely entertaining They were convinced that the standard of taste was too important a matter to be left to the whims of the public and the vagaries of the marketplace aesthetic judgment ought to belong to a few enlightened minds who would then pass it on to the masses Through readings of fictions essays memoirs eulogies and theatrical works by F. neelon Bouhours Marivaux Montesquieu Voltaire Diderot Rousseau Mercier Thomas and others Styles of Enlightenment traces the stages of a confrontation between the virile philosophe and the effeminate worldly writer good and bad taste high art and frivolous entertainment state patronage and the privately sponsored marketplace the academic eulogy and worldly conversation It teases out the finer points of division on the public battlefields of literature and politics and the new world of contesting sexual economies **A Companion to Italian Cinema** Frank Burke, 2017-04-17 Written by leading figures in the field A Companion to Italian Cinema re maps Italian cinema studies employing new perspectives on traditional issues and fresh theoretical approaches to the exciting history and field of Italian cinema Offers new approaches to Italian cinema whose importance in the post war period was unrivalled Presents a theory based approach to historical and archival material Includes work by both established and more recent scholars with new takes on traditional critical issues and new theoretical approaches to the exciting history and field of Italian cinema Covers recent issues such as feminism stardom queer cinema immigration and postcolonialism self reflexivity and postmodernism popular genre cinema and digitalization A comprehensive collection of essays addressing the prominent films directors and cinematic forms of Italian cinema which will become a standard resource for academic and non academic purposes alike **Brain-Computer Interfaces Handbook** Chang S. Immune Profile after Autologous Hematopoietic Stem Cell Transplantation for Autoimmune Diseases: Where Do We Stand? Kelen Cristina Ribeiro Malmegrim,Maria Carolina Oliveira,Antoine Toubert,Dominique Farge-Bancel,2020-02-12

Autologous hematopoietic stem cell transplantation AHSCT was proposed 20 years ago as an alternative therapeutic approach for patients with severe and refractory autoimmune diseases Since then this innovative therapy has been successfully used to treat several autoimmune diseases such as neurological disorders Multiple Sclerosis connective tissue diseases Systemic Sclerosis and Systemic Lupus Erythematosus gastrointestinal inflammatory diseases Crohn s Disease and others Juvenile Arthritis Type 1 Diabetes Vasculitis Experience in phase I II and III clinical trials over the years has led to increased safety and efficacy of this procedure Recent studies have demonstrated superior therapeutic efficacy of AHSCT versus conventional therapies showing that transplantation can induce long term disease remission in the absence of any further immunosuppressive treatment Immune monitoring studies have showed that AHSCT is able to reduce the inflammatory milieu to reset the immune balance and to promote the generation of a new auto tolerant immune repertoire However some patients fail to remain in remission and disease is re activated after some time post transplantation This scenario indicates that further immunological interventions may be still required to improve AHSCT efficacy Clear understanding of the operating immune mechanisms that contribute to specific clinical outcomes is vital to enable improvement of AHSCT protocols for autoimmune diseases
