*Alfonso X, the Learned* H. Salvador Martínez, 2010-03-02 Recent publications about King Alfonso X have tended to focus on his role as monarch in the context of the institutions of the realm This book however emphasizes the human dimension of this extraordinary figure Drawing on King Alfonso's own works and on extensive archival sources both well known and neglected Salvador Martínez brings to life a king who valued the possession of knowledge above all earthly riches The Learned King left a vast legacy of work which would influence developments in both Spain and Europe most significantly in the transfer of knowledge from the Arabs to the Christian West With his intellectual curiosity and his pursuit of wisdom Alfonso X is a towering figure at the origins of modernity The Mind and Art of Calderón Alexander Augustine Parker, 1988 Professor Parker's essays provide a wide ranging survey of the work of Calderón the greatest exponent of Spanish Golden Age drama **Adalberto Ortiz** Marvin A. Lewis, 2014-02-14 Pablo Adalberto Ortiz Quiñones 1914-2002 was one of the most gifted writers in Ecuador and all of Latin America Yet outside of Ecuador and amongst Afro-Hispanic literature scholars in the United States little critical attention has been given to this pioneer whose multi-genre contributions spanned decades In his writings Ortiz explores some of the defining social issues in the Americas since the African and European encounters with the New World including the notion of race He articulates a complex process of affirming the ethnic while not denying the national Consequently miscegenation a biological process as well as acculturation are motifs in his writings which explore the essence of what it means to be Ecuadorian Ortiz does not dwell upon the so-called race question the issue that causes such anxiety and hostility overtly and covertly in the United States Rather he explores in depth ethnicity class and caste in his earlier writings and evolves into an international writer while maintaining a strong black awareness Adalberto Ortiz's transcendence of victimization to a broader view of the world is indicative of the title of Marvin A. Lewis' analysis from margin to center and reflective of the approach taken by many Afro-Hispanic writers The dialectical nature of Ortiz's writings makes his work particularly interesting and rewarding as revealed in Adalberto Ortiz From Margin to Center In this book Lewis examines the form and content relationships between works published during different literary periods and movements Emphasis is placed on Ortiz's transition from the local to the international in each genre and the theoretical approach is eclectic depending upon the exigencies of the texts Ecocriticism post-colonialism post-modernism and other methodologies addressing the environment place displacement identity and historiographic metafiction are fundamental to the Lewis readings of Ortiz's prose and poetry **Feminizing the Enemy** Sidney Donnell, 2003 Donnell engages gender theory and cultural studies in order to shed light on cross-dressing a common though poorly understood practice in plays performed in Spain and Colonial Spanish America during the sixteenth and seventeenth centuries The author shows how certain naturalized assumptions about masculinity and femininity are unmasked through the cross-dressed performance of works attributed to Lope de Rueda Morales Lope de Vega Monroy y Silva and Calderón **Revista Mexicana de Astronomía Y**
