INITIAL CONSULTATION with one of our specialists

- Diagnosis testing
- Diagnosis
- Treatment plan

IUI TREATMENT OPTIONS:

1. Natural cycle Insemination

This option does not involve any medication and follows the woman's natural menstruation cycle.

2. Clomiphene citrate ovulation induction

This option involves the use of medication to stimulate the ovaries and cause or regulate ovulation.

3. FSH ovulation induction

This option involves the use of hormone injections to stimulate the ovaries and cause or regulate ovulation.

OVARIAN STIMULATION

▼ A) Stimulation

The ovaries are stimulated with medication to promote the growth of follicles containing the eggs.

▼ B) Control

The response of the ovaries is monitored with ultrasounds and/or blood tests, to control the size and quantity of follicles.

▼ C) Egg release

To assist with the final maturation of the egg and loosening of the egg from the follicle wall, an injection of Human Chorionic Gonadotrophin (hCG) - the trigger - is administered.

INSEMINATION

D) Sperm

► Using donor sperm - frozen sperm

- Sperm sample is obtained from either a:
- Recipient-recruited donor (known donor)
 - Clinic-recruited donor (unknown donor)

► E) Sperm selection

The frozen donor sperm is thawed and washed, and the live mobile sperm are selected for insemination.

► F) Insemination

The final sperm preparation is gently inserted into the uterine cavity using a speculum and a disposable catheter to bypass the cervix.

PREGNANCY TEST

The pregnancy test will be performed approximately 2 weeks after insemination.

Shana Alexander's State-by-State Guide to Women's Legal Rights Shana Alexander, 1975 Only a generation or two back women were scarcely differentiated one from the next let alone regarded as people able to think and act for themselves on their own independent of men I wanted simply to compile an orderly and logical explanation and listing of these rights so that an inquiring doubtful troubled or just curious woman in any state in the union could if she cared to look herself up This book is addressed to that side of all women which forever struggles to make order out of chaos to plan to divine and get braced for the future by the opposed but complementary acts of looking up and writing down The activity in itself seems to make one feel a bit more secure to make life a little tidier less inchoate and more comprehensible Looking up is a way of finding out without having to ask or of understanding what to ask It permits the oblique approach to problems that today's woman no longer sure of her place often exalted but just as often dizzied by her recent rapid liberation can find reassuring It encourages the still timid but newly independent mind From the author's introduction
