## **Dons And Workers Oxford And Adult Education Since 1850:**

Dons and Workers Lawrence Goldman,1995 This history of adult education in England considers its role in the evolution from late Victorian liberalism to 20th century socialism Emphasis is placed on the University of Oxford whose leading contribution to this movement presents a revealing portrait of its influence on the nation *Dons and Workers* Lawrence Goldman,1995 Dons and Workers is a history of university adult education in England It focuses on the University of Oxford whose leading contribution to this movement presents an unfamiliar portrait of this elitist university and its influence on the nation Lawrence Goldman considers the relationship between intellectuals and the working class over the past century and a half examining the role of adult education in the evolution from late Victorian liberalism to twentieth century socialism

*The Intellectual Life of the British Working Classes* Jonathan Rose,2021-07-20 This is a landmark intellectual history of Britain s working classes from the preindustrial era to the twentieth century Drawing on workers memoirs social surveys library registers and more Jonathan Rose uncovers which books people read how they educated themselves and what they knew A new preface addresses the continuing relevance of the book amidst the upheavals of the present day An astonishing book Ian Sansom The Guardian A passionate work of history Rose has written a work of staggering ambition Daniel Akst Wall Street Journal Winner of the SHARP Book History Prize the American Philosophical Society s Jacques Barzun Prize and the British Council Prize cowinner of the Longman History Today Book of the Year Prize for 2001 named one of the finest books of 2001 by The Economist **The Chronology of Revolution** Ben Harker,2020 Based on a decade of research in over twenty archives The Chronology of Revolution is an accessible and richly detailed work of historical and cultural analysis that fixes its gaze on the legacy of the Communist Party of Great Britain Communists anticipated that the party formed in the world s first industrialised nation would be in the vanguard of world revolution Instead the party never came close to matching the political power of the British Labour Party or continental Communist parties in France or Italy and dissolved itself in 1991 In this book Ben Harker draws on the ideas of Antonio Gramsci to argue that the CPGB despite having great influence over British culture never fully appreciated the importance of civil society to its political strength Analysing members efforts in fields such as science journalism the arts broadcasting and education The Chronology of Revolution offers an alternative radical history of Britain between 1920 and 1991 which draws out important lessons for the contemporary Left

**Culture, Philanthropy and the Poor in Late-Victorian London** Geoffrey A. C. Ginn,2017-04-21 2018 Choice Outstanding Academic Title The Late Victorian cultural mission to London s slums was a peculiar effort towards social reform that today is largely forgotten or misunderstood The philanthropy of middle and upper class social workers saw hundreds of art exhibitions concerts of fine music evening lectures clubs and socials debates and excursions mounted for the benefit of impoverished and working class Londoners Ginn s vivid and provocative book captures many of these in detail for the first time In refreshing our understanding of this obscure but eloquent activism Ginn approaches cultural philanthropy not simply

as a project of class self interest nor as fanciful missionary aestheticism Rather he shows how liberal aspirations towards adult education and civic community can be traced in a number of centres of moralising voluntary effort Concentrating on Toynbee Hall in Whitechapel the People s Palace in Mile End Red Cross Hall in Southwark and the Bermondsey Settlement the discussion identifies the common impulses animating practical reformers across these settings Drawing on new primary research to clarify reformers underlying intentions and strategies Ginn shows how these were shaped by a distinctive diagnosis of urban deprivation and anomie In rebutting the common view that cultural philanthropy was a crudely paternalistic attempt to impose rational recreation on the poor this volume explores its sources in a liberal minded social idealism common to both religious and secular conceptions of social welfare in this period *Culture Philanthropy and the Poor in Late Victorian London* appeals to students and researchers of Victorian culture moral reform urbanism adult education and philanthropy who will be fascinated by this underrated but lively aspect of the period s social activism

**Citizenship, Community, and the Church of England** Matthew Grimley, 2004-06-17 This book traces the influence of Anglican writers on the political thought of inter war Britain and argues that religion continued to exert a powerful influence on political ideas and allegiances in the 1920s and 1930s It counters the prevailing assumption of historians that inter war political thought was primarily secular in content by showing how Anglicans like Archbishop William Temple made an active contribution to ideas of community and the welfare state a term which Temple himself invented Liberal Anglican ideas of citizenship community and the nation continued to be central to political thought and debate in the first half of the 20th century Grimley traces how Temple and his colleagues developed and changed their ideas on community and the state in response to events like the First World War the General Strike and the Great Depression For Temple and political philosophers like A D Lindsay and Ernest Barker the priority was to find a rhetoric of community which could unite the nation against class consciousness poverty and the threat of Hitler Their idea of a Christian national community was central to the articulation of ideas of Englishness in inter war Britain but this Anglican contribution has been almost completely overlooked in recent debate on twentieth century national identity Grimley also looks at rival Anglican political theories put forward by conservatives such as Bishop Hensley Henson and Ralph Inge dean of St Paul s Drawing extensively on Henson s private diaries it uncovers the debates which went on within the Church at the time of the General Strike and the 1927-8 Prayer Book crisis The book uncovers an important and neglected seam of popular political thought and offers a new evaluation of the religious political and cultural identity of Britain before the Second World War

**Making socialists** Jane Martin, 2018-04-30 *Making Socialists* combines a biographical study of a nowadays virtually unknown woman with an original exploration of several major themes in late nineteenth and early twentieth century political and educational history More than a local politician Mary Bridges Adams was among the dynamic late nineteenth century women activists who sought to transform government policy through socialist initiatives with the ultimate utopian aim of creating a social nation The author has assembled a

thorough range of sources including new materials that will bring fresh insights to this biography and more generally to Labour Party and socialist historiography well studied topics The people Adams knew and the circles in which she travelled are particularly attractive features of this book Foes thought her an awful woman friends like George Bernard Shaw remembered the power of her oratory Placed against the circumstances in which she lived and presented as part of a militant and anti capitalist tradition within labour history her life story contributes to new ways of seeing both socialist and feminist politics

*Training minds for the war of ideas* Clarisse Berthezène, 2024-06-04 This book examines attempts by the Conservative party in the interwar years to capture the brains of the new electorate and create a counter culture to what they saw as the intellectual hegemony of the Left It tells the fascinating story of the Bonar Law Memorial College Ashridge founded in 1929 as a College of citizenship to provide political education through both teaching and publications The College aimed at creating Conservative Fabians who were to publish and disseminate Conservative literature which meant not only explicitly political works but literary historical and cultural work that carried implicit Conservative messages This book modifies our understanding of the history of the Conservative party and popular Conservatism but also more generally of the history of intellectual debate in Britain It sheds new light on the history of the middlebrow and how that category became a weapon for the Conservatives

**Adult Education and Globalisation** Barry J. Hake, B. van Gent, 2004 This volume comprises an edited selection of papers which were originally presented at the 9th International Conference of the History of Adult Education that was held in Leiden in September 2002 The theme of that conference and this volume addresses the key dynamics associated with the impact of globalisation upon both the historical and contemporary development of the organisation of adult learning Following a general introduction to the key themes by the chief editor the first section of the volume comprises a number of papers of a distinctly historical nature The focus in this section is upon the development of organised adult learning as a major component of the European modernisation project from the Enlightenment period in the eighteenth century to the twentieth century The second section examines contemporary developments and the emergence of new forms for the organisation of adult learning in the learning society The emphasis here is upon those societal developments that contribute to the centrality of lifelong learning in current education and training policies The third section comprises a number of country studies focused upon the dilemmas associated with the restructuring of national education and training policies Issues of social inclusion and the risk of exclusion form the recurring theme of these country studies

**Bolshevism and the British Left: Labour legends and Russian gold** Kevin Morgan, 2006 Morgan goes far beyond the question of Russian gold to dig beneath a host of myths and misconceptions He shows that Labour's parliamentary advance was itself inconceivable solely on the basis of the workers and trade union pennies with which it is usually identified In addition to the virtual market that developed in Labour's parliamentary nominations there was almost always a need to cultivate private benefactors not excluding Russian ones Thus as Morgan shows George Lansbury drew on a wide variety of financial sponsors to create the space both for his own political career and for Labour's daily newspaper the Daily Herald As for the communist party itself Russian subsidies often gave rise to fierce internal conflict and controversy it was certainly regarded as mixed blessing by many Kevin Morgan has uncovered some fascinating new material on this period of left history and through his insightful analysis a much more complex picture than hitherto emerges both of Labour communist relations and those between the CPGB and the Comintern *Transitions Into the 21st Century*, 2000

**British and German Historiography, 1750-1950** Benedikt Stuchtey, Peter Wende, 2000 This volume compares British and German historiography from the Enlightenment to the middle of the twentieth century It examines the scope and impact of intellectual transfers and throws light on the power and influence of national traditions It documents the ways in which the British and German scholarly communities competed with and profited from each other
