**From Street-smart to Web-wise®** Al Marcella, Brian Moore, Madeline Parisi, 2025-03-13 In Book 3 fifth and sixth graders are maturing becoming more independent and online activities are second nature From Street smart to Web wise A Cyber Safety Training Manual Built for Teachers and Designed

for Children isn't just another book; it's a passionate call to action for teachers. It is a roadmap to navigate the digital landscape safely with confidence and care as the critical job of ensuring students' safety as the digital world expands. Written by authors who are recognized experts in their respective fields, this accessible manual is a timely resource for educators. This book helps us dive into engaging content that illuminates the importance of cyber safety not only in our classrooms but also in the global community. Each chapter is filled with practical examples, stimulating discussion points, and ready-to-use lesson plans tailored for students in fifth and sixth grades. Regardless of your technology skill level, this book will provide you with the guidance and the tools you need to make student cyber safety awareness practical, fun, and impactful. As parents partner with educators to create cyber-secure spaces, this book stands as a framework of commitment to that partnership. It's a testament to taking proactive steps in equipping our young learners with the awareness and skills they need to tread the digital world securely. By choosing *From Street Smart to Web Wise: A Cyber Safety Training Manual Built for Teachers and Designed for Children*, you position yourself at the forefront of educational guardianship, championing a future where our children can explore, learn, and grow online without fear. Join us on this journey to empower the next generation, one click at a time.

**Reimagining Intelligent Computer-Assisted Language Education** Stevkovska, Marija, Klemenčič, Marijana, Kavaklı Ulutaş, Nurdan, 2024-10-18. Reimagining language education through intelligent technologies and computer assistance marks a shift in how we approach language learning in the digital age. With advancements in artificial intelligence and machine learning, there is potential to transform traditional methods into personalized educational experiences. Intelligent systems now offer adaptive learning pathways that cater to individual proficiency levels, learning styles, and progress rates, making language education more accessible and effective. These technologies beg further exploration to effectively provide real-time feedback and support, creating a more engaging and responsive educational experience. *Reimagining Intelligent Computer-Assisted Language Education* explores fundamental aspects of educational technology to improve language teaching and learning. It reimagines educational practice for language teaching and learning through the integration of educational technology for making the language teaching and learning process more efficient and engaging while improving learner performance and progress. This book covers topics such as artificial intelligence, language education, and academic writing and is a useful resource for education professionals, language learners, computer engineers, academicians, scientists, and researchers.

**Honestly Biased** Janu Goswami, 2025-10-15. Bias is one of the most persistent forces shaping human life. It appears in the most intimate spaces of family, silently influencing how children are raised and how relationships evolve. It emerges in professional environments, deciding who gets opportunities and whose voices are ignored. It shapes first impressions when strangers meet, reinforces cycles of poverty, hides within technological systems, and is woven into cultural traditions that dictate what is considered normal or acceptable. Though often invisible, bias quietly directs human decisions, relationships, and structures of power. This book is an exploration of these biases in their many forms. It does not simply

describe prejudice as an abstract concept but traces its presence across the everyday realities of modern life From the home to the workplace from society s treatment of the poor to the coded instructions of algorithms from personal encounters to global cultural exchanges the book shows how bias operates how it divides and how it can be challenged Blending analytical insight with philosophical reflection the book offers both a critique of the systems that perpetuate injustice and a hopeful vision of what is possible when awareness leads to transformation It invites readers to confront uncomfortable truths but also to imagine new ways of living that expand fairness empathy and dignity Ultimately this is not only a study of bias but a call to courage It reminds us that while bias may be a universal part of the human condition it does not need to define our destiny With awareness persistence and compassion humanity can reshape its future one choice one relationship one act of justice at a time

*Literacy and Learning in the Content Areas* Sharon Kane, 2025-04-23 The fifth edition of *Literacy and Learning in the Content Areas Enhancing Knowledge in the Disciplines* provides readers with the knowledge motivation tools and confidence for integrating literacy in their disciplinary classrooms Offering a literature based approach to teaching disciplinary literacy the new edition shares important ways in which teachers of courses in the disciplines can enhance student learning of subject matter and skills while also fostering their growth in the many facets of literacy Throughout each chapter Kane provides engaging and creative strategies and activities to make literacy come alive in discipline specific courses and to encourage students to explore and learn in the classroom Embedded in each chapter are examples resources and strategies to help readers actively engage with and implement literacy practices These features include Teaching in Action examples by subject area Activating Prior Knowledge activities to stimulate critical thinking to prepare readers to learn complex theoretical and conceptual material about teaching learning and literacy and end of chapter Application Activities to apply field experiences to classroom use New to the Fifth Edition Every chapter of this new edition is updated to reflect the current approaches standards and benchmarks for discipline specific literacy A new introduction with reading activities for professors to exemplify a common reading experience with their students supported by online reading materials New book talks to highlight books that show disciplinary thinking in action including literature related to art physical education economics computer science engineering food science music robotics environmental science family and consumer science and technology Expanded practical instructional strategies with new examples focused on STEAM science technology engineering art math fields and topics relating to diversity and language ESL ENL and modern language learning Updated examples and activities to emphasize students active involvement in their own learning
