A Beginner's Guide to Introduce Artificial Intelligence in Teaching and Learning Muralidhar Kurni, Mujeeb Shaik Mohammed, Srinivasa K G, 2023-06-28 This book reimagines education in today's Artificial Intelligence AI world and the Fourth Industrial Revolution. Artificial intelligence will drastically affect every industry and sector, and education is no exception. This book aims at how AI may impact the teaching and learning process in education. This book is designed to demystify AI for teachers and learners. This book will help improve education and support institutions in the phenomena of the emergence of AI in teaching and learning. This book presents a comprehensive study of how AI improves teaching and learning from AI-based learning platforms to AI-assisted proctored examinations. This book provides educators, learners, and administrators on how AI makes sense in their everyday practice. Describing the application of AI in ten key aspects, this comprehensive volume prepares educational leaders, designers, researchers, and policymakers to effectively rethink the teaching and learning process and environments that students need to thrive. The readers of this book never fall behind the fast pace and promising innovations of today's most advanced learning technology. ARTIFICIAL INTELLIGENCE IN EDUCATION: REVOLUTIONIZING LEARNING AND TEACHING Prof. (Dr.) Mita Banerjee, Prof. (Dr.) Sridipa Sinha, Dr. Pranay Pandey, 2024-08-25 **How to Teach AI** Rachelle Dené Poth, 2024 Get practical tools and strategies for teaching AI across the K-12 curriculum with this accessible guide. As AI continues to transform our world, educators have a responsibility to stay current with the changes and ensure that students have the necessary knowledge and skills to succeed in the future. Written by an educator who is currently teaching on this topic, *How to Teach AI* shares practical strategies and tools based on what good practice looks like in the classroom right now. Readers will build confidence in integrating AI into their curriculum so they can effectively prepare students for their careers. Taking a friendly and accessible approach, the book covers a range of topics related to AI, such as machine learning, robotics, and natural language processing, and includes examples of how these technologies are being implemented in different industries and their impact on education. The book includes a chapter dedicated to the ethics of AI, addressing issues around bias, intellectual property, student data privacy, and more. The book includes ideas for using generative AI in the classroom and tips for writing effective prompts. Activity ideas across content areas including computer science, economics, literature, music, and more. Time-saving ideas for teachers and study aids for students to explore AI-powered tool recommendations for teachers. Questions for reflection in every chapter. With examples from educators in the field and a variety of resources to apply in the classroom, this book helps educators become comfortable with this important topic and create meaningful learning experiences for their students. Audience: Elementary and secondary educators and technology coaches. The Future of Schooling in a GenAI World John Fischetti, Scott Imig, Kylie Shaw, Phuong Quyen Vo, 2025-09-30 *The Future of Schooling in a GenAI World* uniquely addresses conversations with those inventing GenAI, influencing policy, and implementing it in schools. *Innovative Methods in Korean Language*

Teaching Nicola Fraschini, Jieun Kiaer, 2024-12-30 Innovative Methods in Korean Language Teaching showcases research based and experience based contributions and reflections on the potential of adopting technological and non technological innovations to promote Korean language students learning The chapters included in this book consider a wide range of innovative technologies and approaches such as large language models virtual reality solutions metaverse platforms multimodal teaching and critical pedagogy and represent a variety of geographical learning contexts from North America to Europe from Korea to the broader Asia Pacific region Overall these contributions make the case for embracing new technologies instead of banning them and for accepting pedagogical shifts that take into consideration contemporary understandings of the communication teaching and learning processes This book will be of interest to graduate students researchers and practitioners of Korean language education and to those working on language teaching and learning in general to inform future teaching practices through careful consideration of contemporary technologies and teaching approaches
