

Like Illingworth, Charles Gore also viewed Christ himself, by having a new type of emergent relationship with God, as bringing into existence the possibility of that new emergent relationship for all of humanity. In 1922 he would write that the Word of God, being "made man or 'flesh,'" was thereby constituted *a new thing in nature*, a new relation of the Creator Spirit, the Spirit of Life, to matter, a new level in the evolution of life.¹³ In addition, Gore's view of evolution led him to conclude that, as evolution revealed progress from lower forms of life ("animal") to higher forms of life ("rational"), "this evolution reached a climax in Christ."¹⁴ While later interpreters would disagree with his progressive view of biological evolution, Gore showed one possible way to describe Christ's continuity with the natural world while still maintaining his unique, divine status.

Though subsequent advances in scientific understanding of evolution would undermine some of their interpretations, the *Lux Mundi* authors, along with others of their generation, nonetheless illustrate one effort to integrate Christology and evolution. Just as importantly, the religious culture which produced these interpretations shows the possibility of doing theology in light of natural science respectfully and critically, without undue defensiveness. The *Lux Mundi* authors did not all agree with each other, and sharp divisions existed between those who remained committed to the received tradition and those more comfortable with moving away from it.¹⁵ Nonetheless, conversations about the interaction of Christian theology and natural science were carried out in a way that was broadly constructive, and that had the result of making the interested Christian community more thoughtful, robust, and articulate about its beliefs, rather than defensive, isolated, and suspicious of scientific research.

The optimism and sense of possibility that marked that time, however, did not last. Events quite outside the realm of theology, especially the First World War, sidetracked the discussion; Stanley Grenz writes, "The guns of August 1914 sounded the death knell of the nineteenth-century intellectual ethos. World War I marked the

Christians live in the Majority World than in Europe and North America Yet most theological literature does not reflect the rising tide of Christian reflection coming from these regions Bringing together theological resources from past and present East and West this work engages conversations with leading global scholars on theology faith and mission for the enrichment of the entire church Dictionary of Mission Karl Muller, Theo Sundermeier, Stephen B. Bevans, Richard H. Bliese, 2006-01-30 Conceived and developed by two of Europe's most eminent missiologists in the country where the scientific and sustained study of mission first took shape the Dictionary of Mission represents the finest of the chorus of voices that comprise contemporary missiology The choice of topics and the authors to address them reflects what Christian mission has become a genuinely worldwide and ecumenical phenomenon That there would be entries on regional theological developments is indicative of how the world church is developing A host of other topics here explored show too how the landscape of mission is changing Taken as a whole then the Dictionary of Mission is a road map through this exciting and challenging terrain from the Foreword **Jesus Our Salvation** Christopher McMahon, 2007 Jesus Our Salvation An Introduction to Christology is an innovative text designed with the introductory student in mind The text is written in an engaging style and is enhanced by pedagogical elements which make the complex material accessible to the student reader Jesus Our Salvation is both sensitive to the challenges of contemporary Christology and well grounded in Catholic identity The book maintains a positive though critical dialogue with many voices in the Christian tradition including those of the classical tradition historical Jesus research the evangelical tradition and contemporary theological thought It addresses important issues of today such as Christology's capacity to promote social transformation and the questions that are raised about Jesus from the perspective of religious pluralism **Boletín Eclesiástico de Filipinas**, 2006 Models of Contextual Theology Stephen B. Bevans, 2002 Stephen B Bevans's Models of Contextual Theology has become a staple in courses on theological method and as a handbook used by missionaries and other Christians concerned with the Christian tradition's understanding of itself in relation to culture First published in 1992 and now in its seventh printing in English with translations underway into Spanish Korean and Indonesian Bevans's book is a judicious examination of what the terms contextual theology and to contextualize mean In the revised and expanded edition Bevans adds a counter cultural model to the five presented in the first edition the translation the anthropological the praxis the synthetic and the transcendental model This means that readers will be introduced to the way in which figures such as Stanley Hauerwas John Milbank Lesslie Newbigin and occasionally Pope John Paul II need to be taken into account The author's revisions also incorporate suggestions made by reviewers to enhance the clarity of the original three chapters on the nature of contextual theology and

the five models **Jesus without Borders** Gene L. Green, Stephen T. Pardue, K. K. Yeo, 2015-01-14 Though the makeup of the church worldwide has undeniably shifted south and east over the past few decades very few theological resources have taken account of these changes Jesus without Borders the first volume in the emerging Majority World Theology series begins to remedy that lack bringing together select theologians and biblical scholars from various parts of the world to discuss the significance of Jesus in their respective contexts Offering an excellent glimpse of contemporary global evangelical dialogue on the person and work of Jesus this volume epitomizes the best Christian thinking from the Majority World in relation to Western Christian tradition and Scripture The contributors engage throughout with historic Christian confessions especially the Creed of Chalcedon and unpack their continuing relevance for Christian teaching about Jesus today
