# Domenico Cimarosa His Life And His Operas

**George Grove, John Alexander Fuller-Maitland, Waldo Selden Pratt, Charles Newell Boyd**

## **Domenico Cimarosa His Life And His Operas:**

Domenico Cimarosa Nick Rossi, Talmage Fauntleroy, 1999-09-30 This is the first book in English about Domenico Cimarosa his more than 65 operas and his sacred and secular vocal music his keyboard music and his various works for solo instruments and ensembles This is also the first authoritative book on Cimarosa since an Italian biography published in 1939 Since that earlier tome was published many important discoveries have come to light The authors completed most of their research work at the library of the Conservatorio di musica S Pietro a Majella in Naples Their efforts have uncovered new information on the composer s marriages wives children actual performance locations dates of first performances of his operas and his professional appointments and contacts The first half of the book is devoted to a chronological description of Cimarosa s life and provides background material on the customs of the times and contemporary descriptions of the music conservatories in Naples where Cimarosa studied as well as those in Venice where he was appointed Maestro The second part presents an alphabetical listing of Cimarosa s more than 65 operas including alternate names for those that were produced on different stages under different names Included with each opera is a simple outline of the plot the cast of characters and their voice ranges and basic information about the structure of the music itself **Domenico Cimarosa**

Nick Rossi, A Short History of Opera Donald J. Grout, Hermine Weigel Williams, 2003-07-18 When first published in 1947 A Short History of Opera immediately achieved international status as a classic in the field Now more than five decades later this thoroughly revised and expanded fourth edition informs and entertains opera lovers just as its predecessors have The fourth edition incorporates new scholarship that traces the most important developments in the evolution of musical drama After surveying anticipations of the operatic form in the lyric theater of the Greeks medieval dramatic music and other forerunners the book reveals the genre s beginnings in the seventeenth century and follows its progress to the present day A Short History of Opera examines not only the standard performance repertoire but also works considered important for the genre s development Its expanded scope investigates opera from Eastern European countries and Finland The section on twentieth century opera has been reorganized around national operatic traditions including a chapter devoted solely to opera in the United States which incorporates material on the American musical and ties between classical opera and popular musical theater A separate section on Chinese opera is also included With an extensive multilanguage bibliography more than one hundred musical examples and stage illustrations this authoritative one volume survey will be invaluable to students and serious opera buffs New fans will also find it highly accessible and informative Extremely thorough in its coverage A Short History of Opera is now more than ever the book to turn to for anyone who wants to know about the history of this art form **Instrumental Music in Late Eighteenth-Century Naples** Anthony DelDonna, 2020-12-17 This book demonstrates the cultivation of instrumental genres by Neapolitan musicians and its significant stature at the royal court Drawing on archival documents and musical sources it paints a compelling history of local instrumental music culture and contributes to

a wider ethnographic portrait of Naples in the late eighteenth century      **Italy's Primacy in Musical History** Guy Graybill, 2019-01-08 This remarkable revelatory reference work written in a conversational style that is witty and fast paced argues that the Italian people did more for the development and propagation of music than any other people in the world The book is filled with supporting data that prove this claim showing that the first written music was an Italian creation and that the vocabulary of music is primarily Italian It also notes that the primary instruments were either devised or thoroughly improved by the Italians the great musical forms including the opera ballet operetta and symphony and that the great body of musical geniuses who were the early composers musicians conductors and vocalists were Italian The book eventually closes with a telling of the great musical story to come out of the Italian American communities      **The New Werner Twentieth Century Edition of the Encyclopaedia Britannica** ,1906      **Opera** George Henry Hubert Lascelles Earl of Harewood, 2000      **Historical Dictionary of Music of the Classical Period** Bertil van Boer, 2012-04-05 When we speak of classical music it often refers rather loosely to serious art music but at the core is really the music of the classical period running from about 1730 to 1800 give or take This was truly one of the most glorious periods for both composition and performance and it is this classical music which is still at the core of today's repertoire Obvious names connected with this period are Haydn Mozart and Beethoven but there were many more still reasonably well known like Gluck and C P E Bach and dozens more who are regrettably little known today This Historical Dictionary of Music of the Classical Period includes not only these composers but also eminent conductors and performers patrons and publishers There are also dictionary entries on major centers of music making typical instruments important technical terms and emerging musical forms including the symphony and opera Indeed with a 1 000 cross referenced entries there is information on most matters of interest This is prefaced by an extensive chronology tracing the course of this period from year to year and an introduction taking a careful look at the period as a whole Finally there is a substantial bibliography Surely this is a book which will appeal not only to students and researchers but all music lovers      *Grove's Dictionary of Music and Musicians* George Grove, John Alexander Fuller-Maitland, Waldo Selden Pratt, Charles Newell Boyd, 1911      **The Story of Opera** Ernest Markham Lee, 1909      The Musician ,1900      **A Dictionary of Music and Musicians (A.D. 1450-1889) by Eminent Writers, English and Foreign** ,1889      **A General History of Music from the Infancy of the Greek Drama to the Present Period** William Smyth Rockstro, 1886      **New International Encyclopedia** ,1914      **The Encyclopædia Britannica** Thomas Spencer Baynes, 1891      *The Story of Symphony* Ernest Markham Lee, 1916      The Rough Guide to Opera Matthew Boyden, Nick Kimberley, 2002 Sketches of opera composers opera synopses and CD reviews      **Musical Tales, Phantasms, and Sketches** Elise Polko, 1876      *A Dictionary of Music and Musicians (A.D. 1450-1880) by Eminent Writers, English and Foreign* George Grove, 1879      **A Dictionary of Music and Musicians (A.D. 1450-1889) by Eminent Writers, English and Foreign** George Grove, 1879

## Reviewing **Domenico Cimarosa His Life And His Operas**: Unlocking the Spellbinding Force of Linguistics
