Don DeLillos Underworld A Readers Guide:

Don DeLillo's Underworld John Duvall, 2002-01-11 This is part of a new series of guides to contemporary novels The aim of the series is to give readers accessible and informative introductions to some of the most popular most acclaimed and most influential novels of recent years from *The Remains of the Day* to *White Teeth* A team of contemporary fiction scholars from both sides of the Atlantic has been assembled to provide a thorough and readable analysis of each of the novels in question

We Average Unbeautiful Watchers Noah Cohan, 2019-07-01 Sports fandom often more than religious political or regional affiliation determines how millions of Americans define themselves In *We Average Unbeautiful Watchers* Noah Cohan examines contemporary sports culture to show how mass mediated athletics are in fact richly textured narrative entertainments rather than merely competitive displays While it may seem that sports narratives are written by athletes and journalists Cohan demonstrates that fans are not passive consumers but rather function as readers and writers who appropriate those narratives and generate their own stories in building their sense of identity Critically reading stories of sports fans self definition across genres from the novel and the memoir to the film and the blog post *We Average Unbeautiful Watchers* recovers sports games as sites where fan authors theorize interpretation historicity and narrative itself Fan stories demonstrate how unscripted sporting entertainments function as identity building narratives which in turn enhances our understanding of the way we incorporate a broad range of texts into our own life stories Building on the work of sports historians theorists of fan behavior and critics of American literature Cohan shows that humanistic methods are urgently needed for developing nuanced critical conversations about athletics Sports take shape as stories and it is scholars in the humanities who can best identify how they do so and why that matters for American culture more broadly

Reading America Elizabeth Boyle, 2009-03-26 This specially commissioned volume of essays offers a refreshing and unusual perspective on classic novels from the American literary canon Accessible to students scholars and the interested reader this engaging collection explores familiar novels through unfamiliar lenses and in so doing sheds light on surprising and previously overlooked aspects of each text *Reading America* presents a new approach to American literature by showcasing a cross section of recent research into previously un tapped areas of interest Each chapter attempts to re read classic American texts using new or unorthodox theoretical frameworks including such diverse topics as an Emersonian reading of Don DeLillo decoding Thomas Pynchon with eco criticism and understanding Paul Auster's New York Trilogy by exploring the graphic novel version of *City of Glass* Other authors explored in this way include Henry James Truman Capote Ralph Ellison Toni Morrison Joyce Carol Oates and F Scott Fitzgerald This type of approach widens the reader's knowledge of each well known text and encourages new critical evaluations of contemporary American literature The collection moves through six large topic areas from Naturalism and an idea of the Great American Novel at the end of the nineteenth century through politics sexuality language and nature to a contemporary engagement with postmodernism Each essay deals with its own

particular subject and author but the full impact of each on the notion of the American novel as a phenomenon can only be understood when read in conjunction with the others Of interest to both undergraduate and postgraduate students Reading America would be a valuable asset to any American Studies or American Literature degree course and a useful companion to American History or Politics courses The volume will also attract strong interest from established academics especially those researching the fields of literature critical theory cultural history and politics

Approaches to Teaching DeLillo's White Noise Tim Engles,John N. Duvall,2006 Don DeLillo s satiric novel White Noise prophetic in 1985 about American society s rampant consumerism information overload overreliance on the media and environmental problems may seem to today s students simply a description of their lived reality The challenge for teachers then is to help them appreciate both the postmodern qualities of the novel and its social critique This volume like others in the MLA s Approaches to Teaching World Literature series is divided into two parts The first part Materials suggests readings and resources for both instructor and students of White Noise The second part Approaches contains eighteen essays that establish cultural technological and theoretical contexts e g whiteness studies place the novel in different survey courses e g one that explores the theme of American materialism compare it with other novels by DeLillo e g Mao II and give examples of classroom techniques and strategies in teaching it e g the use of disaster films
