Donkey Detectives:

Plurals and Events Barry Schein, 1993 Barry Schein proposes combining a second order treatment of plurals with Donald Davidson's suggestion that there are positions for reference to events in ordinary predicates in order to account for several of the more puzzling features of plurals without invoking plural objects with its attendant metaphysics and also provide an absolute truth theoretic characterization of the semantics of sentences with plurals in them How do we make sense of sentences with plural noun phrases in them In *Plurals and Events* Barry Schein proposes combining a second order treatment of plurals with Donald Davidson's suggestion that there are positions for reference to events in ordinary predicates in order to account for several of the more puzzling features of plurals without invoking plural objects with its attendant metaphysics and also provide an absolute truth theoretic characterization of the semantics of sentences with plurals in them Schein's highly original argument should have significant impact on how natural language semantics is done with repercussions for philosophy and logic The book opens with foundational arguments that the logical language should have four major features reduction to singular predication via a Davidsonian logical form amereology of events a logical syntax that allows the constituents of a Davidsonian analysis to be predicated of distinct events and separated from one another by other logical elements and descriptive anaphors that cross refer to the events described by antecedent clauses A semantics for plurality and quantification is developed in the remaining chapters which address some of the empirical and formal questions raised by the variety of interpretations in which plurals and quantifiers participate

The Railway Detective's Christmas Case Edward

Marston, 2022-10-20

A rattling good tale. DAILY MAIL, December 1864. As a cold winter wind scours the Worcestershire countryside, an excursion train comes through a tunnel in the Malvern Hills to be confronted by a blockage on the line ahead. Although a disastrous derailment is averted, the passengers are alarmed. Cyril Huddleday, the man in charge of the excursion, alights to investigate further, but the angry altercation with the driver is cut short by a shot from a sniper straight through Huddleday's head.

Christmas is coming all too soon, and Inspector Robert Colbeck and Sergeant Victor Leeming are under pressure to solve the case quickly. However, with enemies in the shadows behind the seasonal trip and with strong criticism from the local constabulary, the hunt for a cold-blooded killer is far from straightforward.
