Media Capture Anya Schiffrin, 2021-06-22 Who controls the media today There are many media systems across the globe that claim to be free yet whose independence has been eroded As demagogues rise independent voices have been squeezed out Corporate owned media companies that act in the service of power increasingly exercise soft censorship Tech giants such as Facebook and Google have dramatically changed how people access information with consequences that are only beginning to be felt This book features pathbreaking analysis from journalists and academics of the changing nature and peril of media capture how formerly independent institutions fall under the sway of governments plutocrats and corporations Contributors including Emily Bell Felix Salmon Joshua Marshall Joel Simon and Nikki Usher analyze diverse cases of media capture worldwide from the United Kingdom to Turkey to India and beyond many drawn from firsthand experience They examine the role played by new media companies and funders showing how the confluence of the growth of big tech and falling revenues for legacy media has led to new forms of control Contributions also shed light on how the rise of right wing populists has catalyzed the crisis of global media They also chart a way forward exploring the growing need for a policy response and sustainable models for public interest investigative journalism Providing valuable insight into today's urgent threats to media independence Media Capture is essential reading for anyone concerned with defending press freedom in the digital age

You Must Become an Algorithmic Problem José Marichal, 2025-09-16 In the age of AI where personal data fuels corporate profits and state surveillance what are the implications for democracy This incisive book explores the unspoken agreement we have with tech companies In exchange for reducing the anxiety of an increasingly complex online world we submit to algorithmic classification and predictability This reduces incentives for us to become algorithmic problems with dire consequences for liberal democracy He calls for a movement to demand that algorithms promote play creativity and potentiality rather than conformity This is a must read for anyone navigating the intersection of technology politics and identity in an increasingly data driven world
