**Strategic Social Media Management** Karen E. Sutherland, 2024-08-29 This textbook provides a lively introduction to the fast paced and multi faceted discipline of social media management with international perspectives AI approaches and tools to enhance the learning experience Aside from focusing on practical application the textbook takes readers through the process of strategy development and

implementation ethical and accurate content curation and strategic content creation Combining theory and practice Strategic Social Media Management teaches readers how to take a strategic approach to social media from organisational and business perspectives and how to measure results Richly supported by robust and engaging pedagogy and case studies it integrates public relations marketing and advertising perspectives and examines key issues including risk ethics privacy consent copyright and crisis management Reflecting the demands of contemporary practice advice on self care is also provided helping to protect emerging Social Media Managers from the negativity they can experience online By the end readers will be able to develop a social media strategy understand accurate and relevant content curation and create engaging social media content that tells compelling stories connects with target audiences and supports strategic goals and objectives This is an ideal textbook for students learning social media strategy marketing and management at undergraduate level It is also essential reading for business owners marketing public relations advertising and communications professionals looking to hone their social media skills The first edition of this textbook won a Book Excellence Award a Silver International Stevie Award for Best Business Book and was named in the Best 100 Public Relations eBooks of All Time by the Book Authority

Designing Instruction with Generative AI Brent A. Anders, 2025-09-16 Designing Instruction with Generative AI offers a novel set of tools and strategies for leveraging generative AI to create engaging and personalized learning experiences While instructional designers are a tremendous asset to higher education not all colleges or universities have the robust staff needed to support all instructors on staff or large student populations Drawing on a wealth of research professional experience and strategic insights this book equips new and seasoned teaching faculty and trainers with step by step directions on how freely accessible artificial intelligence software can assist with all aspects of the course creation and instruction process and cater to the needs of diverse learners Each chapter offers forward thinking and empirically validated ways to help faculty create and improve instructional materials course design and learning environments while supporting their digital literacies Rather than introduce AI as a means of outsourcing subject area expertise critical thinking or cognitive processes the author instead emphasizes its potential to build on traditionally honed knowledge and foundational instructional design practices From optimizing course alignment and accessibility practices to fostering active learning motivation and engagement educators will find new solutions to common teaching and learning challenges with greater efficiency in time and capacity The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**Teaching with Artificial Intelligence** Stamatis Papadakis, 2025-11-20 This book brings together global experts to explore the transformative potential of artificial intelligence AI in early childhood and primary education Through a combination of theoretical insights and practical case studies it examines how AI technologies can enrich learning empower educators and address key challenges from the evolving needs of young learners to ethical considerations digital equity and teacher

preparedness Topics covered in the book include AI assisted bilingual language development robot supported pedagogy generative AI integration and AI driven assessment tools Through real world examples and research based strategies the book demonstrates how AI can support personalised learning foster creativity and improve educational outcomes without replacing the vital role of teachers It encourages educators to engage with AI in a confident and critical manner offering guidance on implementation while maintaining a strong focus on inclusion child development and responsible practice Written in clear accessible language this book is a practical guide to the opportunities and challenges of AI enhanced education in the years ahead This timely resource will appeal to educators researchers and students of educational technology early childhood education and primary education as well as policy professionals interested in understanding how to meaningfully integrate AI into early learning environments

*Computational Practices and Applications for Digital Art and Crafting* Hai-Jew, Shalin, 2024-07-17 In the current technology age individuals and organizations need to utilize digital tools and resources to foster innovation and effectively address challenges However the realm of digital art and crafting is complex and it requires a deep understanding of the tools and techniques and the social and economic factors that influence these practices *Computational Practices and Applications for Digital Art and Crafting* is a comprehensive guide that offers a roadmap for digital makers and educators to navigate this dynamic field This book covers various topics from standard digital art practices to generative AI in art making It provides practical guidance for digital makers teachers and managers of maker spaces helping them to enhance their skills and stay relevant in the ever changing digital landscape
