study on kinematic structure performance and machining mdpi - Oct 21 2022

web apr 10 2023 in this study we used topology optimization for effective structural optimization designs the optimal conditions for topology optimization included lightweight structures which resulted in reduced structural deformation and increased natural frequency

**structural topology optimization make your design better ansys** - Apr 26 2023

web how topology optimization capabilities account for manufacturing constraints and can apply to multiple load cases and physics including modal and structural simulations how to expand a project to ansys mechanical for more advanced

simulations and final validation
