Handbook Of The Sociology Of Youth In Brics Countries Tom Dwyer, Mikhail K Gorshkov, Ishwar Modi, Chunling Li, Mokong S Mapadimeng, 2017-11-08 Youth are by definition the future This book brings initial analyses to bear on youth in the five BRICS countries Brazil Russia India China and South Africa which are home to nearly half of the world's youth Very little is known about these youth outside of their own countries since the mainstream views on youth and youth culture are derived from the available literature on youth in the industrialized West which is home to a small part of the world's youth This book aims to help fill in this gap The handbook examines the state of youth their past present and permits the development of insights about future The BRICS countries have all engaged in development processes and some remarkable improvements in young people's lives over recent decades are documented However the chapters also show that these gains can be undermined by instabilities poor decisions and external factors in those countries Periods of economic growth political progress cultural opening up and subsequent reversals rearticulate differently in each society The future of youth is sharply impacted by recent transformations of economic political and social realities As new opportunities emerge and the influence of tradition on youth's lifestyles weakens and as their norms and values change the youth enter into conflict with dominant expectations and power structures The topics covered in the book include politics education health employment leisure Internet identities inequalities and demographics The chapters provide original insights into the development of the BRICS countries and place the varied mechanisms of youth development in context This handbook serves as a reference to those who are interested in having a better understanding of today's youth Readers will become acquainted with many issues that are faced today by young people and understand that through fertile dialogues and cooperation youth can play a role in shaping the future of the world

**Youth and Employment in Sub-Saharan Africa** Hiroyuki Hino, Gustav Ranis, 2014-06-05 It is widely acknowledged that youth unemployment is one of the most critical challenges facing countries in Sub-Saharan Africa This volume brings together an eminent group of international scholars to analyse the extent and

complex nature of this joblessness and offer a set of evidence based policy choices that could contribute to solving the problem in the short and long run Part I reviews the existing literature on youth unemployment and underemployment in Sub Saharan Africa from microeconomic and macroeconomic perspectives while Part II goes on to present detailed country studies of Ethiopia Ghana Kenya and South Africa These studies offer a deep understanding of the situation on the ground and consider country specific solutions Throughout the book it is argued that the standard ILO definition of unemployment is too narrow to correctly portray employment situations in Sub Saharan Africa Several alternative measures of unemployment are presented which show that joblessness is far more pervasive than commonly assumed in the literature This volume will be of interest to academics and policy makers involved in African development
