

A person is working on a laptop at a wooden desk. The laptop screen shows a video call interface with a large main window and a sidebar of smaller participant windows. The person's hands are visible, typing on the keyboard. On the desk, there is a glass of water and a book with a colorful cover. The background is slightly blurred, showing a home office environment.

Microsoft Copilot Pro Step by Step Lisa Crosbie,2024-12-20 Copilot Pro enables you to be more creative and productive but using generative AI requires a whole new way of thinking most users try once or twice get poor results and give up This book teaches them what they don t know and helps them get started with the right skills Copilot Pro adds generative AI experiences into the most used Microsoft applications Outlook Word PowerPoint Excel and OneNote enabling users to be more productive and creative by generating first drafts editing and improving their work easily understanding and finding pieces of information in large documents and gaining new insights It also allows users to generate text and images in a browser and via a mobile app using the latest AI models This is a completely new way of thinking and working like having your own personal enthusiastic intern working side by side with you every day to take on the mundane and time consuming tasks freeing you up for more interesting and creative work Generative AI has been everywhere in the media with a huge hype cycle but most everyday

workers don't understand how it can be applied to their day to day work in a practical and transformative way. This will follow the Step by Step series format taking the user through a series of steps they can follow to learn practical skills and understand what's possible. The nature of generative AI is that the results vary every time so the book will provide several different examples of each skill to illustrate the variances and possibilities and help the reader find examples that are most relevant to them to build their understanding and knowledge. Copilot Pro is designed for the consumer or home user and was only announced and made available in January 2024. The uptake of generative AI is more rapid than anything we have seen with any other technology with the free version of Copilot already having had 5 billion images created and 5 billion chats conducted as at the end of January 2024, both doubling quarter over quarter. There is very little in Microsoft learning resources available yet on Copilot and there is a huge demand for learning in this space. People don't know what they don't know and need help with the new way of thinking required to use this technology in practical and effective everyday ways. The author Lisa Crosbie has built a community of learners through her YouTube channel where she is known for her ability to explain technology in a way that makes sense to non-technical users. **Beyond the Workplace Zoo** Nigel

Oseland, 2021-09-27. This book begins by outlining the common design mistakes with the modern open plan office and the industry focus on cost that has resulted in the ill-fated Workplace Zoo. The requirements of office-based workers according to psychological theory and research are then explained. Dr Oseland references historical studies in psychophysics to describe how to design environmental conditions: acoustics, lighting, temperature, indoor air quality that enhance performance by supporting basic physiological needs. More contemporary research in environmental psychology investigates how cognition affects our interpretation and response to physical stimuli depending on personality, context, attitude and other personal factors. This in turn informs individual requirements for the environmental conditions as well as group needs. Studies in evolutionary psychology and biophilia are also referenced. The latter part of the book turns to workplace solutions and focuses on how to plan design and manage offices to accommodate our innate human needs now and in the future. The importance of designing for inclusivity is also recognised including accommodating cultural, gender and generational differences along with designing spaces for neurodiversity. Dr Oseland's proposed workplace solution, the Landscaped Office, is a revived and revised version of Brolandschaft with a contemporary twist. The impact of workplace trends such as agile working and hot desking is also explored and found to complement the workplace solution, resulting in the Agile Landscaped Office. This book is key reading for professionals and postgraduate students in business interior design, architecture, surveying, facilities management, building services, engineering, HR and organisational or environmental psychology.
