The Radical Case for Teaching Skim

Reading in First-Year Writing Ellen C. Carillo, 2025-10-15 The Radical Case for Teaching Skim Reading in First Year Writing encourages faculty particularly in writing studies to check internal biases toward deep reading and teach skim reading in first year writing courses Written by Ellen C Carillo who has previously published on the importance of teaching deep reading this small book is a controversial prompt for further discussion and exploration Data from studies of the lived experiences of undergraduates indicate that students do not need deep reading practices in the majority of their classes

across the disciplines and moreover that students succeed in their classes by skim reading Rather than imagining an idealized set of circumstances that allow for sustained deep reading as does a great deal of the scholarship on reading in writing studies The Radical Case for Teaching Skim Reading in First Year Writing argues for teaching students reading practices that will support their success in their college writing assignments rather than those strategies the field believes should support their success In our information landscape and our fragile democracy encouraging skimming as opposed to deep reading may seem like a gamble this very tendency toward the quick rather than the critical has undoubtedly contributed to the current crisis of mass misinformation However teaching students to use skim reading as a strategic tool for purposeful engagement and efficient yet thoughtful information filtering better equips them to navigate the rapidly changing information landscape and manage the fast paced flow of content from diverse media sources [How To Make Money With AI Content Creation](#) Sean GRAHAM,2025-03-08 A complete 6 Module course on Making Money with AI Creations Why Take This Course The digital economy is evolving and Artificial Intelligence AI is the game changer that can help you work smarter not harder Whether you re an entrepreneur freelancer content creator or just looking for a side hustle this course will show you how to leverage AI to generate income online with minimal effort Imagine creating high quality blog posts in minutes automating social media or running marketing campaigns while you sleep all with the power of AI No tech background No problem This course is designed for beginners and professionals alike breaking down AI powered strategies into actionable steps What Will You Achieve By the end of this course you ll Know how to use AI tools to create content automate workflows and grow your business Master AI driven SEO to rank higher on Google and drive traffic effortlessly Automate social media marketing and turn engagement into revenue Build an AI powered income plan to start earning within 30 days Future proof your business by staying ahead of AI and automation trends If you re ready to stop trading time for money and start working smarter this is the course for you At the end of this course I have added to essential piece of information you will need on your journey *Money with AI: How ChatGPT Can Help You* Jay Nans,2025-11-14 The ebook Money with AI How ChatGPT Can Help You is a practical beginner friendly guide for honestly earning income using the free version of ChatGPT without requiring technical skills Core Philosophy and Realism The book establishes that ChatGPT functions as a time saving assistant and production partner not an automatic money making machine requiring consistent human effort and oversight It stresses avoiding get rich quick scams and setting realistic expectations initial earnings are typically small and emerge after a few weeks to a few months of consistent work Getting Started Initial chapters focus on using the free version of the tool explaining what ChatGPT can and cannot do and detailing the creation of effective prompts Key rules for successful prompts include being clear about the task providing context giving format instructions and iteratively checking and improving the AI s output Income Streams and Workflows The majority of the guide outlines multiple low barrier income streams providing step by step workflows tools primarily ChatGPT Canva Google Docs and example
