the same issues raised again and again by both new and experienced colleagues

When Writing Workshop Isn't Working: Answers to Ten Tough Questions, Grades 2-5 provides practical advice to overcome these common problems and get your writing workshop back on track. Acknowledging the process-based nature of the writing workshop, this book does not offer formulaic, program-based, one-size-fits-all answers but presents multiple suggestions based on what works in real classrooms. This second edition includes updated ideas for common issues in the workshop and features new chapters on technology and resistant writers. Questions addressed in the new edition include: How can I reach resistant writers? How can I support students in their use of technology, including AI? How should I assess student writing? How do I manage writing conferences? How can I help my students revise and self-edit? This book is a handy reference tool for answering specific questions as they pop up during the year. Overmeyer uses student examples throughout to help teachers envision these solutions in their own classes, and he includes an array of classroom-tested ideas for multilingual learners. There may not be any easy answers to the complexities of the writer's workshop, but by identifying and providing advice on common stumbling blocks, the second edition of *When Writing Workshop Isn't Working* provides a solid groundwork, freeing up time and creativity for teachers to address the specific needs of their students.
