**PRESENT SENSE** Steve Morlidge,2019-10-04 In this provocative yet practical guidebook Steve Morlidge demonstrates why the approach and methods of performance reporting that all information professionals have been taught fails and what we need to do differently to help us make sense of the dynamic complex and data rich world in which we now live and work Reporting on performance should not be treated as worthy but dull requiring no more than routine comparisons of actual against targets This traditional approach is based on the false premise organisations can be managed as if they were a simple mechanical system operating in a predictable environment And the methods associated with it such as variance analyses and data tables that are used to measure and communicate performance are completely inadequate Instead Morlidge argues performance reporting should be reconceived as an act of perception conducted on behalf of the organisation helping to make sense of the sensory inputs data that it has at its disposal And to do so effectively performance reporters need to learn from and exploit the strengths of our own brains compensate for its weaknesses and communicate in a way that makes it easy for their audience s brains to assimilate Drawing on the latest insights from cognitive science in this book you will learn how to bring a dynamic perspective into performance reporting how to deploy a set of simple tools to help spearhead the signal from the

noise inherent in large data sets and to make sound inferences how to set goals intelligently about the grammar of data visualization and how use it to design powerful and simple reports In this way information professionals are uniquely charged with the responsibility for creating the shared consciousness that is a prerequisite for organisations to effectively respond and adapt to their environments     [Learn Flash CS4](#) Mark Pennycuick,2010     *English Mechanic and Mirror of Science* ,1875     **The concise standard dictionary of the English language, abridged from Funk & Wagnalls Standard dictionary** James Champlin Fernald,1902     **Concise Standard Dictionary of the English Language ...** James Champlin Fernald,1910     **Proceedings of the Twelfth National Conference on Artificial Intelligence** American Association for Artificial Intelligence,1994     **Willing's Press Guide and Advertisers' Directory and Handbook** ,2001     **British and Colonial Printer and Stationer** ,1928     **Ohio Practical Farmer** ,1892
