Generative AI in Education Ilaria Torre,Diego Zapata-Rivera,Chien-Sing Lee,Antonio Sarasa-Cabezuelo, Ioana Ghergulescu,Paul Libbrecht,2024-12-24 In the field of education there is a growing interest in the use of Generative Artificial Intelligence to reshape the educational landscape Led by our esteemed Associate Editors Dr Zapata Rivera Prof Torre and Review Editors Profs Lee Sarasa Cabezuelo Libbrecht Dr Ghergulescu this editorial initiative aims to investigate the transformative potential of Generative AI in various aspects of education By leveraging machine learning models these intelligent systems extract useful insights from vast amounts of data making them capable of delivering highly individualized content They can analyze a learner s proficiency level learning style and pace and then tailor the study material accordingly Whether a learner prefers visual aids textual content or interactive modules Generative AI can adapt its content generation strategies to meet distinct preferences and learners needs This ensures an elevated engagement level and enhanced comprehension highlighting its potential to transform traditional teaching methodologies

Cyber Security in the Age of Artificial Intelligence and Autonomous Weapons Mehmet Emin Erendor,2024-11-19 Although recent advances in technology have made life easier for individuals societies and states they have also led to the emergence of new and different problems in the context of security In this context it does not seem possible to analyze the developments in the field of cyber security only with information theft or hacking especially in the age of artificial intelligence and autonomous weapons For this reason the main purpose of this book is to explain the phenomena from a different perspective by addressing artificial intelligence and autonomous weapons which remain in the background while focusing on cyber security By addressing these

phenomena the book aims to make the study multidisciplinary and to include authors from different countries and different geographies The scope and content of the study differs significantly from other books in terms of the issues it addresses and deals with When we look at the main features of the study we can say the following Handles the concept of security within the framework of technological development Includes artificial intelligence and radicalization which has little place in the literature Evaluates the phenomenon of cyber espionage Provides an approach to future wars Examines the course of wars within the framework of the Clausewitz trilogy Explores ethical elements Addresses legal approaches In this context the book offers readers a hope as well as a warning about how technology can be used for the public good Individuals working in government law enforcement and technology companies can learn useful lessons from it *Introduction to Research - E-Book* Elizabeth DePoy, 2024-10-07 Learn the latest healthcare and human service research methods Introduction to Research Understanding and Applying Multiple Strategies Seventh Edition helps bridge the gap between research and practice by giving you a solid foundation for critiquing your own work This easy to read guide covers all the major research design strategies qualitative quantitative naturalistic experimental type and mixed method Plus this edition has been updated to include contemporary references two all new chapters updated research methods and more UPDATED New thinking on who can know who should be involved in the research enterprise big data research methods strategies and references provides you with the latest information on research in diverse areas of health and human service inquiry Comprehensive coverage of research designs helps you further understand how to apply these methods to healthcare and human service settings Detailed examination of qualitative quantitative and mixed methodologies offers a unique and balanced focus that makes this text more comprehensive than others in its field NEW Two additional chapters cover contemporary ethical issues and emergent design NEW Enhanced ebook version included with every new print purchase features math tips and study questions plus access to all the text figures and references with the ability to search customize content make notes and highlights and have content read aloud Case examples provide real life snapshots of what it is like to participate in different types of research processes identify research dilemmas relevant to chapter subjects and alert you to problems you might encounter Contemporary practice examples give you a highly relevant understanding of today's changing health and human service and research environments In depth analysis of big data and data analytics expands your knowledge of how to apply these numbers to health and human service research Emphasis on technology in research and research informed practice ensures you grasp the latest available methods *The Gig Economy Revolution: Rethinking Talent Management* Dr. Aashish Dhiman, Dr. Pallavi Tyagi, Mr. Mukund Tyagi, Mr. Arpit Walia, 2025-04-25 [Tomorrow's People and New Technology](#) Felix Dodds, Carolina Duque Chopitea, Ranger Ruffins, 2021-10-13 As we witness a series of social political cultural and economic changes disruptions this book examines the Fourth Industrial Revolution and the way emerging technologies are impacting our lives and changing society The Fourth Industrial Revolution is characterised by the emergence of new technologies that

are blurring the boundaries between the physical the digital and the biological worlds This book allows readers to explore how these technologies will impact peoples lives by 2030 It helps readers to not only better understand the use and implications of emerging technologies but also to imagine how their individual life will be shaped by them The book provides an opportunity to see the great potential but also the threats and challenges presented by the emerging technologies of the Fourth Industrial Revolution posing questions for the reader to think about what future they want Emerging technologies such as robotics artificial intelligence big data and analytics cloud computing nanotechnology biotechnology the Internet of Things fifth generation wireless technologies 5G and fully autonomous vehicles among others will have a significant impact on every aspect of our lives as such this book looks at their potential impact in the entire spectrum of daily life including home life travel education and work health entertainment and social life Providing an indication of what the world might look like in 2030 this book is essential reading for students scholars professionals and policymakers interested in the nexus

between emerging technologies and sustainable development politics and society and global governance **Most Popular Web Sites** Lycos Development Group,1997-02 *Genealogy Basics Online* Cherri Melton Flinn,2000 Flinn offers a step by step guide to searching and finding one s ancestors onthe Internet with 100 helpful screenshots **Introduction to**
