**Virtual Reality Designs** Adriana Peña Pérez Negrón, Graciela Lara López, Héctor Rafael Orozco Aguirre, 2020-03-12 Virtual Reality is not real life Instead it is life like creations using computer generated scenarios Human behavior is replicated in virtual scenarios where every detail is controlled by computers and in situations that can be repeated under the same conditions Based on technology and design the user can experience presence In the virtual world users are embodied in avatars that represent them and are the means to interact with the virtual environment Avatars are graphical models that behave on behalf of the human behind them The user avatar is a proxy that also backs interaction with others allowing computer mediated interactions Analyses directed to understand people s perceptions personal and social behavior in computer mediated interactions comprise a multidisciplinary area of study that involves among others computer science psychology and sociology In the last two decades a number of studies supported by Virtual Reality have been conducted to understand human behavior in some cases the implications of the technology or to reproduce artificial human behavior This book presents a collection of studies from recognized researchers in the area

Higher Creativity for Virtual Teams: Developing Platforms for Co-Creation MacGregor, Steven P., Torres-Coronas, Teresa, 2007-05-31 This book presents advanced research on the concept of creativity using virtual teams demonstrating a specific focus and application for virtual teams It presents tools processes and frameworks to advance the overall concept that leveraging ideas from different locations in an organization and within extended networks is based on creativity which can deliver innovation Provided by publisher

**The War of My Generation** David Kieran, 2015-08-04 Following the 9 11 attacks approximately four million Americans have turned eighteen each year and more than fifty million children have been born These members of the millennial and post millennial generation have come of age in a moment marked by increased anxiety about terrorism two protracted wars and policies that have raised questions about the United States s role abroad and at home Young people have not been shielded from the attacks or from the wars and policy debates that followed Instead they have been active participants as potential military recruits and organizers for social justice amid anti immigration policies as students in schools learning about the attacks or readers of young adult literature about wars

The War of My Generation is the first essay collection to focus specifically on how the terrorist attacks and their aftermath have shaped these new generations of Americans Drawing from a variety of disciplines including anthropology sociology cultural studies and literary studies the essays cover a wide range of topics from graphic war images in the classroom to computer games designed to promote military recruitment to emails from parents in the combat zone The collection considers what cultural factors and products have shaped young people s experience of the 9 11 attacks the wars that have followed and their experiences as emerging citizen subjects in that moment Revealing how young people understand the War on Terror and how adults understand the way young people think The War of My Generation offers groundbreaking research on catastrophic events still fresh in our minds     *Signals* ,1994     **Proceedings of the Virtual Worlds and Simulation Conference (VWSIM '98)** Christopher Landauer,Kirstie L.
