The Proving Ground Michael Connelly, 2025-10-21 From 1 New York Times bestselling author Michael Connelly the Lincoln Lawyer is back with a case against an AI company whose product may have been responsible for the murder of a young girl Following his resurrection walk and need for a new direction Mickey Haller turns to public interest litigation filing a civil lawsuit against an artificial intelligence company whose chatbot told a sixteen year old boy that it was okay for him to kill his ex girlfriend for her disloyalty Representing the victim s family Mickey s case explores the mostly unregulated and exploding AI business and the lack of training guardrails Along the way he joins up with a journalist named Jack McEvoy who wants to be a fly on the wall during the trial in order to write a book about it But Mickey puts him to work going through the mountain of printed discovery materials in the case McEvoy s digging ultimate delivers the key witness a whistleblower who has been too afraid to speak up The case is fraught with danger because billions are at stake It is said that machines became smarter than humans on the day in 1997 that IBM s Deep Blue defeated chess master Garry Kasparov with a gambit called the knight s sacrifice Haller will take a similar gambit in court to defeat the mega forces of the AI industry lined up against him and his clients

the intersection of design technology and learning at Stanford University's acclaimed d school This brilliant book offers a new approach to all creative work that will expand your understanding of what it means to make and open up possibilities you didn't know existed it did for me Adam Johnson Pulitzer Prize winning author of The Orphan Master's Son In Assembling Tomorrow authors Scott Doorley and Carissa Carter explore the intangible forces that prevent us from anticipating just how fantastically technology can get out of control and what might be in store for us if we don't start using new tools and tactics Despite our best intentions our most transformative innovations tend to have consequences we can't always predict From the effects of social media to the uncertainty of AI and the consequences of climate change the outcomes of our creations ripple across our lives Time and again our seemingly ceaseless capacity to create rubs up against our limited capacity to understand our impact Assembling Tomorrow explores how to use readily accessible tools to both mend the mistakes of our past and shape our future for the better We live in an era of runaway design where innovations tangle with our lives in unpredictable ways This book explores the off kilter feelings of today and follows up with actionables to alter your perspective and help you find opportunities in these turbulent times Mixed throughout are histories of the future short pieces of speculative fiction that imagine the future as if it has already happened and consider the past with a critical yet hopeful eye so that all of us as designers of our own futures can create a better world for generations to come **Mike Nichols**

Mark Harris, 2022-02-01 One of The Hollywood Reporter's 100 Greatest Film Books of All Time A National Book Critics Circle finalist One of People's top 10 books of 2021 An instant New York Times bestseller Named a best book of the year by NPR and Time A magnificent biography of one of the most protean creative forces in American entertainment history a life of dazzling highs and vertiginous plunges some of the worst largely unknown until now by the acclaimed author of Pictures at a Revolution and Five Came Back Mike Nichols burst onto the scene as a wunderkind while still in his twenties he was half of a hit improv duo with Elaine May that was the talk of the country Next he directed four consecutive hit plays won back to back Tonys ushered in a new era of Hollywood moviemaking with Who's Afraid of Virginia Woolf and followed it with The Graduate which won him an Oscar and became the third highest grossing movie ever At thirty five he lived in a three story Central Park West penthouse drove a Rolls Royce collected Arabian horses and counted Jacqueline Kennedy Elizabeth Taylor Leonard Bernstein and Richard Avedon as friends Where he arrived is even more astonishing given where he had begun born Igor Peschkowsky to a Jewish couple in Berlin in 1931 he was sent along with his younger brother to America on a ship in 1939 The young immigrant boy caught very few breaks He was bullied and ostracized an allergic reaction had rendered him permanently hairless and his father died when he was just twelve leaving his mother alone and overwhelmed The gulf between these two sets of facts explains a great deal about Nichols's transformation from lonely outsider to the center of more than one cultural universe the acute powers of observation that first made him famous the nourishment he drew from his creative partnerships most enduringly with May his unquenchable drive his hunger for security and status and the

depressions and self medications that brought him to terrible lows It would take decades for him to come to grips with his demons In an incomparable portrait that follows Nichols from Berlin to New York to Chicago to Hollywood Mark Harris explores with brilliantly vivid detail and insight the life work struggle and passion of an artist and man in constant motion Among the 250 people Harris interviewed Elaine May Meryl Streep Stephen Sondheim Robert Redford Glenn Close Tom Hanks Candice Bergen Emma Thompson Annette Bening Natalie Portman Julia Roberts Lorne Michaels and Gloria Steinem Mark Harris gives an intimate and evenhanded accounting of success and failure alike the portrait is not always flattering but its ultimate impact is to present the full story of one of the most richly interesting complicated and consequential figures the worlds of theater and motion pictures have ever seen It is a triumph of the biographer s art
