## **Drawing Collection The Drawing Collection:**

**560 Broadway** Derrick R. Cartwright, 2008 560 Broadway is the first book to explore one of this country's most remarkable private collections of modern and contemporary American drawings. Featuring such artists as Sol LeWitt, Mel Bochner, Jasper Johns, and Agnes Martin, the collection of Wynn Kramarsky has won high praise for its diversity, chronological sweep, and quality. Moreover, Kramarsky's exhibition space at 560 Broadway in New York City, in operation from 1991 to 2006, served as a pivotal meeting place for museum and gallery professionals as well as emerging artists. This handsome book traces the history of the collection and exhibition space while providing a record of the museum exhibitions that borrowed from the collection together with an illustrated list of artworks donated by Kramarsky to cultural institutions. Essays by directors of leading art museums, all collaborators with Kramarsky, consider the collection's contributions to the present and future of contemporary drawing. Nietzsche claimed that aesthetic pleasure can never be democratic, but as a collector and benefactor, Wynn Kramarsky proves Nietzsche wrong. This book is a testament to Wynn's extraordinary generosity based on his belief that pleasure must be shared. Mel Bochner The Judith Rothschild Foundation Contemporary Drawings Collection Christian Rattemeyer, 2009 Formed by Harvey S. Shipley Miller, trustee of the Judith Rothschild Foundation and given to MoMA in 2005, The Judith Rothschild Foundation Contemporary Drawings Collection was conceived to be a broad survey of contemporary drawing practice and it more than fulfills that goal, mixing drawings of the 1960s and 1970s with major works of the past twenty years by such artists as Kai Althoff, Robert Crumb, Peter Doig, Marcel Dzama, Mark Grotjahn, Charline von Heyl, Martin Kippenberger, Sherrie Levine, Agnes Martin, Fred Sandback, Paul Theil, and Andrea Zittel among many others. This definitive catalogue raisonné presents the collection as a whole with an introduction by Christian Rattemeyer, five essays each focusing on a different geographic area of artistic production, images throughout, and a text on paper conservation. **Compass in Hand** Christian Rattemeyer, Museum of Modern Art (New York, N.Y.), 2009 Compass in Hand brings together approximately 250 works from the Judith Rothschild Foundation's extraordinary gift of drawings to The Museum of Modern Art in 2005. Formed by Harvey S. Shipley Miller, the Foundation's trustee, the collection comprises over 2,500 works on paper by more than 650 artists and was conceived to be the widest possible cross section of contemporary drawing made primarily within the past twenty years. An extended essay by Christian Rattemeyer highlights the primary curatorial concepts and categories of the collection, and a conversation between Harvey S. Shipley Miller and Gary Garrels, former Chief Curator of the Department of Drawings at MoMA, recounts the objectives and processes through which the collection was originally formed, providing a unique panorama on the state of drawing today. **Italian Architectural Drawings from the Cronstedt Collection in the Nationalmuseum, Stockholm** Anna Bortolozzi, Nationalmuseum (Sweden), 2021-01-05 Dieser Band stellt die erste umfassende Untersuchung italienischer Architekturzeichnungen aus der Sammlung Cronstedt im Nationalmuseum Stockholm vor. **II Badile Album of Drawings: The Origins of Collecting Drawings in Early Modern Northern Italy** Evelyn Karet, 2017-07-05 Evelyn Karet's in depth study of the Antonio II Badile Album the earliest known example of an art collection pasted onto the pages of a book is both focused and broad in its appeal to those interested in the early modern era The provenance of the album is traced from its assemblage to the seventeenth century collection of Conte Lodovico Moscardo to its dismantling by the dealer Francis Matthiesen in the 1950s establishing that the volume conserved in the Frits Lugt Collection is not an original but a replica produced by Matthiesen Although Antonio II must be celebrated as the collector of the drawings new paleographic analysis has identified the actual compiler of the album after Antonio's death providing a terminus post quem in the late 1530s or early 1540s Karet enlarges the focus from the album itself to the historic tradition of collecting drawings in northern Italy in the early modern era before Vasari for which the album provides a new point of reference Throughout the book Karet discusses the Badile family examines the individual drawings in the book investigates the contacts between artists and humanists their rich diverse collections and the humanist mind set that fostered the appreciation of drawings She explores notable early drawing collections in northern Italy and the role of northern Italy as a center of collection in the sixteenth and seventeenth centuries The book concludes with two appendices a reconstruction of the original album including a discussion of the reconstruction process suggestions about what the album originally looked like and a page by page guide to its contents and a detailed analysis of Francis Matthiesen's career This book opens up new areas of inquiry into an overlooked subject **Collecting Prints and Drawings** Sylvia Heudecker, Andrea M.

Gáldy, 2019-01-22 Cabinets of prints and drawings are found in the earliest art collections of Early Modern Europe From the sixteenth century onwards some of them acquired such fame that the necessity for an ordered and scientific display meant that a dedicated keeper was occasionally employed to ensure that fellow enthusiasts as well as visiting diplomats courtiers and artists might have access to the print room Often collected and displayed together with drawings the prints formed a

substantial part of princely collections which sometimes achieved astounding longevity as a specialised group of collectibles such as the Florentine Gabinetto Disegni e Stampe at the Uffizi GDSU Prints and drawings both bought and commissioned were collected by princes and by private amateurs Like the rest of their collections the prints and drawings were usually preserved and displayed as part of or near the owner's library in close proximity to scientific instruments cut gems or small sculptural works of art Both prints and drawings not only documented an encyclopaedic approach to the knowledge available at the time but also depicted parts of the collections in the form of a paper museum Prints and drawings also served as a guide to the collections They spread their fame and the renown of their owners across Europe and into new worlds of collecting both East and West This volume explores issues such as when how and why did cabinets of prints and drawings become a specialised part of princely and private collections How important were collections of prints and drawings for the self representation of a prince or connoisseur among specialists and social peers Is the presentation of a picture hanging in a gallery for example by Charles Eisen for the Royal Galleries at Dresden to be treated as documentary evidence Are there notable differences in the approach to collecting presentation and preservation of prints and drawings in diverse parts of the world What was the afterlife of such collections up to the present day

**Never for Want of Powder** C. L. Bragg,2007 Lavishly illustrated with seventy four color plates and fifty black and white photographs and drawings Never for Want of Powder tells the story of a world class munitions factory constructed by the Confederacy in 1861 the only large scale permanent building project undertaken by a government often characterized as lacking modern industrial values In this comprehensive examination of the powder works five scholars a historian physicist curator architectural historian and biographer bring their combined expertise to the task of chronicling gunpowder production during the Civil War In doing so they make a major contribution to

understanding the history of wartime technology and Confederate ingenuity Early in the war President Jefferson Davis realized the Confederacy's need to supply its own gunpowder Accordingly Davis selected Col George Washington Rains to build a gunpowder factory An engineer and West Point graduate Rains relied primarily on a written pamphlet rather than on practical experience in building the powder mill yet he succeeded in designing a model of efficiency and safety He sited the facilities at Augusta Georgia because of the city's central location canal transportation access to water power railroad facilities and relative security from attack As much a story of people as of machinery Never for Want of Powder recounts the ingenuity of the individuals involved with the project A cadre of talented subordinates including Frederick Wright C Shaler Smith William Pendleton and Isadore P Girardey assisted Rains to a degree not previously appreciated by historians This volume also documents the coordinated outflow of gunpowder and ammunition and Rains's difficulty in preparing for the defense of Augusta Today a lone chimney along the Savannah River stands as the only reminder of the munitions facility that once occupied that site With its detailed reproductions of architectural and mechanical schematics and its expansive vista on the Confederacy Never for Want of Powder restores the Augusta Powder Works to its rightful place in American lore
