Sir Peter Lely (1618-1680): Dutch Classicist, English Portraitist, and Collector Brandon Henderson, 2008-07-24 The Dutch born English Baroque portrait painter Sir Peter Lely 1618 1680 is chiefly known for his drowsy sensual beauties and bewigged courtiers associated with the Restoration court of Charles II He is often seen as merely successor or imitator of Sir Anthony Van Dyck 1599 1641 with a common resemblance in all his sitters and an inability to capture a true likeness as well as an absence of any personal characterization or psychological interest Alternately this dissertation aims to reveal Lely's genius of superb draughtsmanship fine color and lively composition as well as to examine and reinstate the artist's impact and deep impress on British painting Lely's early style owes much to his Dutch origin and training with the pioneers of Dutch classicism and the distinctive qualities of his early work and the change in his traditions and techniques are examined The development of Lely's portrait style is examined from his arrival in England in the early 1640s through his years as leading aristocratic and society portraitist and Principal Painter to the King in the 1660s to his mature work in the 1670s when his work is characterized by a restricted palette and cool restraint And finally Lely as collector is examined He assembled one of the largest and most impressive private collections of art in seventeenth century Europe and his acquisitions and their influences benefits and effects are considered Upon Lely's death his highly important collection was dispersed by auction in a series of four well publicized sales in 1681 1682 1688 and 1694 respectively These sales brought many important works to the London art market and were some of the most important sales to date in England as well as the most spectacular of the modern auction world Although Lely initially emulated the style and techniques of Van Dyck he juxtaposed his profound Dutch qualities of rich color dramatic illumination and romantic landscapes and ultimately imbued a sensuality languor and luxurious negligence into the traditions and continuity of Van Dyck's grand Baroque style of English portraiture Subsequently together later with Sir Godfrey Kneller 1646 1723 Sir Peter Lely completely dominated British portraiture from the death of Van Dyck in 1641 until William Hogarth 1697 1764 challenged his style in the first half of the eighteenth century Due to large file size some images within this ebook do not appear in high resolution

Michelangelo, Drawing, and the Invention of Architecture Cammy Brothers, 2008 Michelangelo's fame as a painter and sculptor tends

to eclipse his reputation as an architect but his impact here was just as profound In this book Cammy Brothers takes an unusual approach to Michelangelo's architectural designs arguing that they are best understood in terms of his experience as a painter and sculptor By following the steps by which Michelangelo arrived at his extraordinary inventions the author questions conventional notions of spontaneity as a function of genius Rather she explores the idea of drawing as a mode of thinking using its evidence to reconstruct the process by which Michelangelo arrived at new ideas By turning the flexibility and fluidity of his figurative drawing methods to the subject of architecture Michelangelo demonstrated how it could match the expressive possibilities of painting and sculpture
