Debt Problems Of Eastern Europe:

Debt Problems of Eastern Europe Iliana Zloch-Christy, 1987-11-27 This 1998 book analyzes the causes and consequences of the massive Eastern European debt to the West accumulated in the 1970s East-West Financial Relations Iliana Zloch-Christy, 1991-04-26 The impact of Eastern Europe's convertible currency external debt situation on the financing of East West trade in the late 1980s and early 1990s *The Polish Crisis and Relations with Eastern Europe, 1979-1982* Isabelle Tombs, Richard Smith, 2017-03-16 This volume presents a collection of diplomatic documents describing Britain's relations with Eastern Europe from 1979 to 1982 with special focus on the crisis in Poland After coming to power in 1979 the Conservative Government of Margaret Thatcher reaffirmed a policy of differentiation between the Soviet Union and the rest of Eastern Europe and between individual countries concurrently it encouraged states to exercise a limited amount of independence This policy was soon put to the test when in 1980 Solidarno the Solidarity trade union led by Lech Waśa challenged the power of the Party state in Poland Political demands social unrest and economic crisis culminated in the imposition of martial law in December 1981 finally suspended in December 1982 The volume maps the UK response in consultation with Western partners to the unfolding crisis in Poland the threat of Soviet intervention and the impact on other Communist states in Europe The volume also provides a flavour of bilateral UK relations with Albania Bulgaria Czechoslovakia the German Democratic Republic Hungary Romania and Yugoslavia highlighting themes such as human rights and trade This volume will be of great interest to students of British Politics Eastern European Politics Cold War History Diplomacy Studies and International Relations in general *The Debt Problems of Eastern Europe* Iliana Zloch, 1987 East European Economies: Foreign trade and international finance, 1985 **East European Economies**, 1985 **The Creditworthiness of Eastern Europe in the 1980s** Keith Crane, 1985 This report develops various scenarios to analyze the hard currency debt problems of Poland Hungary and Romania It considers the effect of adjustment policies on 1 those countries struggling with their balance of payments 2 their ability to generate more rapid increases in output through increased hard currency exports and 3 their levels of military expenditure while there is so much pressure on their balance of payments It concludes that if Romania and Hungary manage to service their debts in the next few years they should be creditworthy borrowers by the end of the 1980s but that Poland has little prospect of restoring solvency even in the 1990s Output growth in all three countries will be constrained by their ability to finance hard currency imports and to increase hard currency exports Western credit policy is not likely to affect either the independence of these countries from the Soviet Union or their military expenditures International Problems and Relations a Series of Addresses and Papers Presented at the Nations Conference of International Problems and Relations, Held Under the Auspices of the Carnegie Endowment for International Peace with the Cooperation of the Academy of Political Science in the City of New York, May 10-14, 1926 Academy of Political Science in the City of New York, 1926 *The West and Eastern Europe* Thomas A. Baylis, 1994 An

expert on East European politics and economics analyzes and evaluates Western policies toward the new East European democracies as they struggle to build stable political orders and functioning market economies He argues that the West must give higher priority to assisting the region and reorient its strategies so as to emphasize the political and administrative dimensions of economic reconstruction He reviews the economic legacy of past Western policies and of Eastern Europe's previous dependency on the Soviet Union and then examines in detail the changing East West trade patterns the prospect for Western investment and technology transfer the questions of finance debt and foreign aid and the dilemmas of market reform Students scholars policy analysts historians and business people will find this fascinating reading It is an excellent text for courses in U S foreign policy comparative politics international political economy East European and Slavic studies comparative economics and international trade and finance
