Abstract - Employees are a vital for the growth and development of an organization. With growing turnover rates and poor work conditions in organizations often making headlines there is a need to examine employee's perceptions of their work conditions and the effect it has on work related outcomes. The present study examines the associations between, decent work, job satisfaction and turnover intentions among 200 (106 females and 94 males) employees working in the formal sector. The results indicate a positive association between decent work and job satisfaction and negative associations between decent work and turnover intentions as well as between job satisfaction and turnover intentions. Job satisfaction was also seen to mediate the relationship between decent work and turnover intentions underscoring the importance of creating and maintaining decent work conditions that prioritize aspects such as adequate compensation, safe working conditions, free time, access to healthcare and alignment of values.

Keywords: Decent Work, Job Satisfaction, Turnover Intentions, Turnover, Formal Sector.

I. INTRODUCTION

With a population of over 140 crores (WorldBank, 2021) India is on its way to become the world's largest workforce. Interestingly, India is seen to have labor market dualism where majority of the population consists of the informal sector while a very small proportion comprises of the formal sector. The Formal sector in India refers to as business entities which are officially registered and have a regulated status (ILO, 2021; Narayana, 2006). The organized sector is generally referred to as the formal sector. The formal sector includes government and public departments as well as public and private enterprises that employ ten or more people (ILO, Indian Economic Report, 2024). The Psychology of Working Theory (Duffy et al, 2016) has started to gain prominence in the recent years as it is a modern theory built on a holistic approach that helps overcome issues of traditional career counseling theories by addressing new advances in the field, emphasizes on the full scope of work, is inclusive and views work from an individual perspective. It aims to help provide a

framework to understand the psychological and social factors which influence an individual's relationship with their work as work is a factor that has an influence on various aspects of one's life. With decent work being the cornerstone of theory, it also explains how decent work once attained can then potentially lead to numerous beneficial outcomes including-need satisfaction, social connection, work fulfillment and well-being of an employee.

As stated by (Nizami & Prasad, 2017, p.ix) "Although conditions of work are pitiable in the informal sector, there is a need to examine them in the formal sector as well with a view to find status of decent work therein." Contradictory to the beliefs about the typical formal sector employment, researcher (Nizami, 2019) highlighted that only a small proportion of employees from the IT industry had access to the parameters of decent work. Similarly recent research by researchers (Vaidya & Patil, 2022) explored the aspects of decent work in Indian organizations from a qualitative perspective. Here it was seen that despite working in the formal sector employees faced deficits in aspects of decent work. Employees with multiple years of work experiences faced work pressures that interfered with their work life balance and took a toll on them with some even expressing their intentions to leave. Similarly researcher (Jaiswal, 2017) talks about the growing informalization of jobs in India, where even a sector like banking considered to be formal and regulated shows deficits in decent work and quality of work. Likewise, according to the ILO report 2021, Indians worked the longest and were seen to be paid the least with no leisure (Global Wage Report, 2021). This brings forth the question of whether ensuring decent work conditions and ensuring job satisfaction are important factors to investigate while trying to understand employees' intentions to leave. Thus, the present study addresses this question by studying the 3 variables in attempts to find association and possible causal pathways between variables.

Based on this, following hypothesis are formulated:

Hypothesis 1 (H1): Decent Work is Negatively Associated with Turnover intention

Decent Intentions

National Tuberculosis Association

Decent Intentions:

Good Intentions—Bad Consequences Phillip Nelson, 2017-03-24 A new approach to understanding voter choice with important implications There is a substantial class of voters who would like to do good but ignore important consequences of their attempts to do so naïve altruists The book both shows why such a class exists and tests the implications of that group's behavior in a setting where other voters are self interested others are traditionalists and imitation plays a big role in voter choice The book also looks at the policy implications of such behavior accepting as desirable but not fully achievable the democratic ideal in which sufficiently informed citizens are given equal weight in political choices Naïve altruists ignore the anti growth consequences of redistribution from the rich as a class to the poor as a class That ignorance produces too much of that redistribution in terms of the democratic ideal **The Argument of Supererogation and the Limits of Duty in**

Applied Ethics Marie-Luise Raters, 2025-09-30 Drawing on current research this book demonstrates that there are rational reasons for why certain actions should reasonably not be considered duties despite their moral value Would you do something unpleasant or dangerous you are not obliged to simply because it would benefit others I won't do this because I don't have to This argument of supererogation can be used to reject overly demanding moral expectations Yet the argument is not always equally convincing For instance refusing to donate a kidney is morally accepted Refusing a favor to a friend however seems indecent Perhaps supererogatory acts do not exist at all This book offers a refined framework for understanding the boundaries of moral duty It is of interest to students and scholars of moral philosophy applied ethics and meta ethics **Public Service Magazine**, 1926 Judy's annual, ed. by C.H. Ross Charles Henry Ross, **Good**

Intentions George A. Birmingham, 1945 **The People Make the Place** D. Brent Smith, 2008 First Published in 2008 Routledge is an imprint of Taylor Francis an informa company **The Moral Adjustments of the Christian Life** George Allen Pegram, 1915 **An Analysis of Human Motive** Frank Carrel, 1905 Industrial Pioneer, 1925 Journal of the Western Society of Engineers Western Society of Engineers (Chicago, Ill.), 1905 Salvos Waldo David Frank, 1924

American Municipalities, 1906 **Beverage Journal**, 1906 The Expositor Samuel Cox, Sir William Robertson Nicoll, James Moffatt, 1901 Plasterer and Cement Finisher, 1921 The Modern Review Ramananda Chatterjee, 1912

Includes section Reviews and notices of books The Journeyman Barber, 1906 *More Than Good Intentions* Dean Karlan, Jacob Appel, 2011-04-14 A leading economist and researcher report from the front lines of a revolution in solving the world's most persistent problem When it comes to global poverty people are passionate and polarized At one extreme We just need to invest more resources At the other We've thrown billions down a sinkhole over the last fifty years and accomplished almost nothing Dean Karlan and Jacob Appel present an entirely new approach that blazes an optimistic and realistic trail between these two extremes In this pioneering book Karlan and Appel combine behavioral economics with worldwide field research They take readers with them into villages across Africa India South America and the Philippines where economic

theory collides with real life They show how small changes in banking insurance health care and other development initiatives that take into account human irrationality can drastically improve the well being of poor people everywhere We in the developed world have found ways to make our own lives profoundly better We use new tools to spend smarter save more eat better and lead lives more like the ones we imagine These tools can do the same for the impoverished Karlan and Appel s research and those of some close colleagues show exactly how In America alone individual donors contribute over two hundred billion to charity annually three times as much as corporations foundations and bequests combined This book provides a new way to understand what really works to reduce poverty in so doing it reveals how to better invest those billions and begin transforming the well being of the world
