Brock, 1989 This book is the most comprehensive treatment available of one of the most urgent problems in bioethics decision making for incompetents

**Ethical Issues in Neurology** James L. Bernat, 2008 Written by an eminent authority from the American Academy of Neurology's Committee on Ethics Law and Humanities this book is an excellent text for all clinicians interested in ethical decision making The book features outstanding presentations on dying and palliative care physician assisted suicide and voluntary active euthanasia medical futility and the relationship between ethics and the law New chapters in this edition discuss how clinicians resolve ethical dilemmas in practice and explore ethical issues in neuroscience research Other highlights include updated material on palliative sedation advance directives ICU withdrawal of life sustaining therapy gene therapy the very low birth weight premature infant the developmentally disabled patient informed consent organizational ethics brain death controversies and fMRI and PET studies relating to persistent vegetative state

**Practical Decision Making in Health Care Ethics** Raymond J. Devettere, 2009-12-04 For nearly fifteen years Practical Decision Making in Health Care Ethics has offered scholars and students a highly accessible and teachable alternative to the dominant principle based theories in the field Devettere's approach is not based on an ethics of abstract obligations and duties but following Aristotle on how to live a fulfilled and happy life in short an ethics of personal well being grounded in prudence the virtue of ethical decision making This third edition is revised and updated and includes discussions of several landmark cases including the tragic stories of Terri Schiavo and Jesse Gelsinger the first death caused by genetic research Devettere addresses new topics such as partial birth abortion law embryonic stem cell research infant euthanasia in The Netherlands recent Vatican statements on feeding tubes organ donation after cardiac death new developments in artificial hearts clinical trials developed by pharmaceutical companies to market new drugs ghostwritten scientific articles published in major medical journals and controversial HIV AIDS research in Africa This edition also includes a new chapter on the latest social and political issues in American health care Devettere's engaging text relies on commonsense moral concepts and avoids academic jargon It includes a glossary of legal medical and ethical terms an index of cases and thoroughly updated bibliographic essays at the end of each chapter that offer resources for further reading It is a true classic brilliantly conceived and executed and is now even more valuable to undergraduates and graduate students medical students health care professionals hospital ethics committees and institutional review boards and general readers interested in philosophy medicine and the rapidly changing field of health care ethics

**End-of-life Decisions** Maurice Steinberg, Stuart J. Youngner, 1998 In recent years the lens of the media has narrowed issues of euthanasia and assisted suicide to a drama involving two players Dr Kevorkian and the law This has left suffering patients and their families unrecognized and isolated

when facing the most painful life decision Here at last is a book that addresses the role of psychiatry in dealing with a major controversial topic in American medicine today treatment decisions at the end of life *End of Life Decisions A Psychosocial Perspective* acknowledges and explores the role psychiatrists can play as advisers to the terminally ill and their loved ones It describes the wide range of emotional and psychiatric issues faced by the patient family and physician that affect choices patients make to limit treatment or seek physician assistance in dying A distinguished group of contributors all of whom have extensive experience dealing with end of life issues in clinical practice address topics that may not have been considered previously From dealing with issues of terminal illnesses in children to making difficult treatment decisions for patients with AIDS from judging the competency of clinically depressed patients for making sound decisions to understanding the influence of family dynamics economic forces and language differences on doctor patient communication the book uses specific case studies and data to explore the role of professionals in end of life decisions *End of Life Decisions* strikes a careful balance between the need for patient autonomy and the challenge to make well formulated treatment decisions This book will heighten modern medicine s and society s consciousness concerning the difficult challenges faced by patients and their families when making end of life decisions

**The Rowman & Littlefield Handbook of Bioethics** Ezio Di Nucci, Ji-Young Lee, Isaac A. Wagner, 2022-10-17 This bioethics handbook offers concise up to date and easy to read chapters on a broad range of bioethical topics in the following categories foundational concepts theory and method healthcare ethics research ethics public health technology and the environment The volume provides a snapshot of current bioethics taking into account current affairs and emerging new topics Each chapter acknowledges and critically breaks down the historical developments of the subject and the most authoritative existing literature on respective topics providing accessible and up to date philosophical analysis As such the chapters are designed to be attractive as primary or supplementary teaching material for university classes of the philosophical or bioethical variety with clear demarcations and indicators for key terms ideas and arguments that should also facilitate productive note taking and points for critical discussion for students The handbook also serves as a one stop starting resource for multi and interdisciplinary researchers and practitioners who engage with bioethics in their work

*Children, Theology, and Bioethics* Jessica Bratt Carle, 2024-12-15 Children remain at the periphery when bioethics envisions autonomous adults as normative human beings *Children Theology and Bioethics Beyond Autonomy* explores the full humanity of children inviting greater recognition of their place in the moral landscape of healthcare Theological insights into vulnerability dependence and agency summon appreciation for the experiences of pediatric patients and reveal what it means to be human at every age Interdisciplinary dialogue between bioethics childhood studies and pastoral theology is woven throughout with illustrative clinical vignettes from Bratt Carle s experience as a pediatric chaplain and clinical ethicist

**Disputes and Dilemmas in Health Law** Ian R. Freckelton, 2006 This book replaces the successful *Controversies in Health Law* Under the same editorship and much the same authorship it is substantially larger 30 chapters

instead of 18 and correspondingly more comprehensive It retains the lively analysis and the focus on controversial and cutting edge problems The chapters are broken up into parts covering Litigation and Liability Reproductive Technologies The Sequelae of the End of Life Public Health Ethical Frameworks and Dilemmas Regulation Human Rights and Therapeutic Jurisprudence Research and Vulnerability and Information Privacy and Confidentiality They consider issues raised by new technologies changing legislation and altering community expectations by new regulatory processes for medicine and all of the health professions by the fundamental changes to civil liability for medical negligence by the fierce debate over the role of coroners Disputes and Dilemmas in Health Law covers questions on property in human tissue and on the ethical and legal aspects of the genetics revolution provides a modern take on old issues such as reproductive law takes account of changes relating to expert evidence and discusses how difficult cases in relation to psychiatric injury and wrongful life are pushing compensability to its edges

*Rights and Resources* Frances H. Miller, 2018-05-08 This title was first published in 2003 The fulfilment of health care rights in a world where resources are scarce is a prominent issue In this volume Frances H Miller introduces studies on a wide variety of aspects of this important yet complex process

**Principles of**

**Biomedical Ethics** Tom L. Beauchamp, James F. Childress, 1994 Biomedical ethics was a young field when the first edition of this book went to press in late 1977 Immense changes occurred in the field's literature between the first edition and the present fourth edition Although major changes have appeared in all editions after the first this edition includes more significant changes than any other *A Guide to Psychosocial and Spiritual Care at the End of Life* Henry S.

Perkins, 2017-03-17 Psychological social and spiritual care is as important as physical care at the end of life Yet caregivers often feel ill equipped to give that nonphysical care This book shows how to do it The book addresses all caregivers who attend dying patients doctors nurses chaplains clergy in the pastorate social workers clinical psychologists family caregivers and others It covers such topics as the functional and emotional trajectories of dying the varied approaches of patients and caregivers to end of life decisions culturally based beliefs about dying the differences between depression and grief and people's views about the right time to die the death experience itself and the afterlife For each topic the book introduces core concepts and summarizes recent research about them The book presents much of its material in readable tables for easy reference applies the material to real life cases lists the main take home points for each chapter and gives references for additional reading The book helps caregivers anticipate the reactions of patients and survivors to end of life traumas and suggests how caregivers can respond insightfully and compassionately At the same time the book challenges caregivers to think through their own views about death and dying This book therefore is a must read for all caregivers professional and nonprofessional alike who strive to give their patients comprehensive high quality end of life care Paternalism and Respect Axel Schmetzke, 1993 **The Journal of Clinical Ethics**, 2007 The Right to Die Alan Meisel, 1995 Although the laws of informed consent favor a patient's right of preference serious legal issues are raised whenever the decision is made to withhold or withdraw medical treatment by someone other than the patient This second edition discusses the legal issues involved every time these decisions must be made and gives you a detailed analysis of the reported cases and statutes You'll examine the new developments in assisted suicide and mercy killing the liability issues regarding the decisions to forgo life sustaining treatment the non legal developments in right to die issues and the statutory changes in right to die laws
