Decision Support Software Dss 26a Version:

DSS 2.0 - Supporting Decision Making With New Technologies Sven Carlsson, Patrick Brezillon, 2014-05-15 Advances in technology have resulted in new and advanced methods to support decision making For example artificial intelligence has enabled people to make better decisions through the use of Intelligent Decision Support Systems DSS Emerging research in DSS demonstrates that decision makers can operate in a more timely manner using real time data more accurately due to data mining and big data methods more strategically by considering a greater number of factors more precisely and inclusively due to the availability of social networking data and with a wider media reach with video and audio technology This book presents the proceedings of the IFIP TC8 Working Group 8 3 conference held at the Universit Pierre et Marie Curie in Paris France in June 2014 Throughout its history the conference has aimed to present the latest innovations and achievements in Decision Support Systems This year the conference looks to the next generation with the theme of new technologies to enable DSS2 0 The topics covered include theoretical empirical and design science research case based approaches in decision support systems decision models in the real world healthcare information technology decision making theory knowledge management knowledge and resource discovery business intelligence group decision support systems collaborative decision making analytics and big data rich language for decision support multimedia tools for DSS Web 2 0 systems in decision support context based technologies for decision making intelligent systems and technologies in decision support organizational decision support research methods in DSS 2 0 mobile DSS competing on analytics and social media analytics The book will be of interest to all those who develop or use Decision Support Systems The variety of methods and applications illustrated by this international group of carefully reviewed papers should provide ideas and directions for future researchers and practitioners alike *DECISION SUPPORT SYSTEMS: THE INTERNATIONAL JOURNAL* ,1998

Decision Support Systems and Electronic Commerce ,2002-05 **Expert Systems and Artificial Intelligence in Decision Support Systems** Henk G. Sol, Cees A.Th. Takkenberg, Pieter F. de Vries Robb , 2013-11-11 In 1985 it was 20 years since Nobel Laureate Herbert A Simon published THE SHAPE OF AUTOMATION For Men and Management This short but important and still topical book dwells on three subjects The Long Range Economic Effects of Automation Will the Corporation be Managed by Machines The New Science of Management Decision In contrast with George Orwell who was a critic of contemporary political systems rather than a prophet Simon portrays a far more rosy picture of our brave new world Simon s work breathes optimism First computer technology looking back it is aoubtful whether even the professor expected the hardware development e have wittnessed Secondly our ability to tame the beast there is now not much reason for complacency and satisfaction Offices and factories can by no means be called automated at most semi automated Thirdly the organizational and social implications of these rapid technological developments referring to what he then called The Computer and the new decision making techniques Concerning this last point there is little need to emphasize that had been

less practical application in organizations than the often impressive theoretical developments would lead one to believe In Europe this situation is even more acute than in the USA and Japan The ESPRIT programme of the ECC and many similar national programs intend to bridge the gap Environmental Decision Support Systems Giorgio Guariso,H.
