Decision Analytic Intelligent Systems Automated Explanation And Knowledge Acquisition:

Decision-Analytic Intelligent Systems David A. Klein, 2013-02-01 This book presents a framework for building intelligent systems based on the mathematical decision models of Decision Analysis The author provides new techniques for automated explanation and knowledge acquisition in formally sound systems that reason about complex tradeoffs in decisions Also included are specifications for implementing these techniques in computer programs along with demonstration applications in marketing process control and medicine Readers with an interest in artificial intelligence will gain a foundation for building formally justifiable intelligible modifiable systems for computing decisions involving multiple considerations with applications across a variety of domains Beyond decision models the methodology of the work reported suggests a more general approach to employing formal mathematical models in transparent intelligent systems Decision analysis experts will find a collection of methods for explaining decision analytic advice to clients in intuitive terms for simplifying parameter assessment and for managing changing preferences over time The book provides sufficient background material to promote understanding by readers who may be unfamiliar with artificial intelligence with decision analysis or with both fields and such material is labeled to increase the well versed reader s efficiency in skipping particular sections

Decision Behaviour, Analysis and Support Simon French, John Maule, Nadia Papamichail, 2009-07-30 Behavioural studies have shown that while humans may be the best decision makers on the planet we are not quite as good as we think we are We are regularly subject to biases inconsistencies and irrationalities in our decision making *Decision Behaviour Analysis and Support* explores perspectives from many different disciplines to show how we can help decision makers to deliberate and make better decisions It considers both the use of computers and databases to support decisions as well as human aids to building analyses and some fast and frugal tricks to aid more consistent decision making In its exploration of decision support it draws together results and observations from decision theory behavioural and psychological studies artificial intelligence and information systems philosophy operational research and organisational studies This provides a valuable resource for managers with decision making responsibilities and students from a range of disciplines including management engineering and information systems

e-Democracy David Rios Insua, Simon French, 2010-09-02 Internet is starting to permeate politics much as it has previously revolutionised education business or the arts Thus there is a growing interest in areas of e government and more recently e democracy However most attempts in this field have just envisioned standard political approaches facilitated by technology like e voting or e debating Alternatively we could devise a more transforming strategy based on deploying web based group decision support tools and promote their use for public policy decision making This book delineates how this approach could be implemented It addresses foundations basic methodologies potential implementation and applications together with a thorough discussion of the many challenging issues This innovative text will be of interest to students researchers and practitioners in the fields of e government e democracy and e
