Reasoning, Rationality, and Probability Maria Carla Galavotti, Roberto Scazzieri, Patrick Suppes, 2008 This volume broadens our concept of reasoning and rationality to allow for a more pluralistic and situational view of human thinking as a practical activity Drawing on contributors across disciplines including philosophy economics psychology statistics computer science engineering and physics Reasoning Rationality and Probability argues that the search for strong theories should leave room for the construction of context sensitive conceptual tools Both science and everyday life the authors argue are too complex and multifaceted to be forced into ready made schemata

Computer-Aided Decision Analysis Stuart S. Nagel, 1993-06-30 The essence of decision aiding software is that it consists of various forms of microcomputer programming designed to enable users to process a set of 1 goals to be achieved 2 alternatives available for achieving them and 3 relations between goals and alternatives in order to choose the best alternative combination allocation or predictive decision rule Benefits from using decision aiding software include 1 being more explicit about goals to be achieved alternatives available for achieving them and relations between goals and alternatives 2 being stimulated to think of more goals alternatives and relations than one would otherwise be likely to do 3 being prepared to handle multiple goals alternatives and relations without getting confused and without feeling the need to resort to a single composite goal or a single go no go alternative 4 being encouraged to experiment with changes in the

inputs into one's thinking to see how one's conclusions are affected and 5 being better able to achieve or exceed one's goals when choosing among alternatives or allocating scarce resources There are five parts to the book covering 1 a broad overview of decision aiding packages including criteria for evaluating them 2 approaches that are based on management science and operations research including linear programming and decision trees 3 spreadsheet based software generally with goals on the columns alternatives on the rows relations in the cells overall totals for each alternative at the far right and a capability for indicating how the totals would be altered as a result of changes in the inputs 4 expert systems software including rule based and knowledge based expert systems and 5 general applications of decision aiding software and a discussion of the increasing utilization of such software
