The Simple Feeling of Being Ken Wilber, 2004-07-13 As you look deeply into your own awareness and relax the self contraction and dissolve into the empty ground of your own primordial experience the simple feeling of Being right now right here is it not obvious all at once Were you not present from the start Did you not have a hand to play in all that was to follow Did not the dream itself begin when you got bored with being God Was it not fun to get lost in the productions of your own wondrous imagination and pretend it all was other Did you not write this book and countless others like it simply to remind you who you are Ken Wilber The author of nineteen books of philosophy and psychology Ken Wilber is a pioneering thinker who has developed an integral theory of everything that embraces the truths of both Eastern spirituality and Western science Yet while he is best known for his scholarly research into the world's contemplative traditions Wilber is also an accomplished spiritual practitioner and mystic in his own right In order to highlight the personal wisdom of this popular author the editors of The Simple Feeling of Being have assembled a collection of inspirational mystical and instructional passages drawn from his publications These heartfelt writings born of Ken's own meditation practice and inner experiences include Poetic passages of contemplative insights and reflections Inspired descriptions of Spirit Nondual Awareness the Witness One Taste and other topics Commentary on the spiritual contributions of figures such as Ralph Waldo Emerson Saint Teresa of vila Meister Eckhart and Ramana Maharshi Anecdotes of personal experience and glimpses into Wilber's inner world Practical spiritual instructions and guided meditations The True Path Roy J. Mathew, M.d., 2009-02-18 In The True Path Duke psychiatrist Roy J Mathew draws on his own extensive knowledge of neuroscience as he looks at the centuries old Indian idea that spirituality is a state of mind a higher form of consciousness Mathew shows how the latest brain research demonstrates that activities such as prayer music art nature intuitive knowledge altruism and meditation stimulate the non dominant hemisphere of the brain Spirituality is intimately connected to this area of the brain and must be accessed according to Indian philosophy by removing the sheaths of everyday life With scientific evidence that this pure consciousness truly exists Mathew shows readers how to use meditation yoga and other traditional methods of contemplation to achieve this spiritual state of mind Mirror of Nature, Mirror of Self Dimitry Shevchenko, 2023 Mirror of Nature Mirror of Self considers theories of consciousness in Indian philosophical traditions through the metaphor of reflection in a mirror Just as a face appears where it is not in a mirror s reflection so do consciousness and its properties such as the sense of self subjectivity and experience In a dialogue with psychoanalytical theory and contemporary philosophy of mind the book develops a new model of consciousness and contributes to contemporary debates 'Things to come': being essays towards a fuller apprehension of the Christian idea [ed. by G.W. Allen]. Thing, 1892 Rai Yoga Dr. Lake Singh, 2018-08-21 Every mortal creature is fraught with the fear of death Even man thinks he shall disappear into the abyss of nothingness But the Godheads all beg to differ Krishna Jesus Buddha et all They unequivocally declared death as the staircase to heaven Raj yoga though

confers upon man an even higher state of being the consummate path of moksha or oneness with the Creator which is what this sui generis or unprecedented text is all about WE ARE ON THE CUSP OF A SPIRITUAL BREAKTHROUGH HERE Evidently the Western world is familiar with only hatha yoga a series of dexterous postures and breathing exercises designed to promote mens sana in corpore sano a sound mind in a healthy body However there are other more laudable streams of yoga Among them is raj or the kingly mega yoga which espouses not only how one may win the heavens but also be in sync and harmony with the Creator at the exigency or verge of death In medical parlance we see a rather striking similarity between birth and death In birth scientists have determined that two specialized germ cells fuse to give rise to life As it happens at the beginning of life why not at the end also a process whereby the micro and macro souls precipitously merge and become one In that case then what will it profit a man if he gains the whole world but loses his own soul The author introduces here testimonials evidences and plausible yogic techniques that a devout practitioner may employ not only to save his soul but also transform fearsome death to an enlivened spiritual experience Yoga and Judaism, Second Edition Steven J. Gold, 2009-09-28 This underground classic has resurfaced in an improved and expanded second edition There is new material on Hebrew Mantras and Jewish Healing Meditation along with other additions and revisions Learn about aspects of Yoga beyond the mat and Judaism beyond religion and the many connections between these two ancient spiritual traditions Includes practical guides to basic Yoga and Jewish meditation and healing meditation and their theoretical underpinnings This Second Edition is the same as the other one listed just with a different ISBN for different distribution Transcendence Edward Bruce Bynum, 2006-09-01 Critical Acclaim for The Roots of Transcendence From the Scholars This is a powerful book A true picture of the cross fertilization of human history and culture A major book one of the signposts of the time Molefi Kete Asante PhD Chairman Department of African American Studies Temple University Author Afroocentricity and Rhythms Unity From the Psychiatrists A PIONEERING TEXT in Transego Psychology The author envisions the next step in the development of human psychology He raises the new question that the self is not localized in the mind but is non local a field of interconnected relations A valuable model is presented to define psychopathological diagnostic issues and therapeutic treatment issues Truly wonderful Richard D King MD From the Preface Author African Origin of Biological Psychiatry From the Consciousness Researchers A daring leap involving new conceptual models Discusses the anxieties and stresses of our time while IT PROVIDES READERS THE TOOLS BY WHICH ANXIETIES AND STRESSES CAN BE ADDRESSED Stanley Krippner PhD Distinguished Professor of Psychology California Institute of Integral Studies Author Dreamtime and Dreamwork and Your Personal Mythology A mighty synthesis of knowledge and feeling science and poetry clinical observation and spiritual insight which SPEAKS POWERFULLY TO LAY AND PROFESSIONAL PEOPLE ALIKE An important contribution to our understanding of the mind and its operation in the world John White MAT Author Future Science and Kundalini Evolution and Enlightenment Here is the epic adventure of the rise and unfolding of
