**Joy From Deep Within** Hemant Gupta, 2010-12-20 What do we all humans have in common We are all incorrigible seekers of bliss or joy Our minds are wired to be happy At least that is what our modern scientific studies contend Yet most of us know we are not joyful In fact we struggle most of time to be and stay happy What has gone wrong I have attempted to answer this question in this book It has been my own journey to arrive at lasting happiness and joy It builds on the informational computational foundation of our universe developed in the first book of this series Road to Digital Divine It combines latest science of mind and matter with spirituality putting forth a new concept of our self the quantum self rooted in the informational nature of our being Most of us are familiar with our physical self that we see in the mirror It however does not define us completely What is critical for us to know is our informational self Knowing the true nature of this self and acting accordingly is essential for us humans to achieve good emotional health and realize lasting joy in our lives In fact not knowing or ignoring the messages from this essential nature of our self is the leading reason for suffering in our human society I paint this self as a tale of three minds emotional rational and cosmic The three minds computationally synchronized lead to the birth of informational self This self is a computationally astute structure It computes using two modes of computation Each of these modes lead to two extreme personalities One binary computation which leads to a nature of self that courts I me and mine tendencies I have called this as our binary self And the other quantum computation which leads to a nature of self with us we and ours tendencies I call this as our quantum self Both these nature of self are quite familiar in today's society The binary information processing leads to egoic entity which is present in most of us It dominates today's human society It is responsible for incredible progress that humans have made as a surviving species but it is also responsible for most of the sufferings that modern humans face today The quantum self has saintlike nature It feels love empathy and oneness with others It is truthful and always stays in the company of divinity It is responsible for widespread altruism in nature and in humans With two selves of very different nature in one body modern humans have learned the meaning of the word suffering Which self will win Which is our true self Understanding of this fact is not trivial In fact it is nothing short of enlightenment as I explain how the understanding of our true self can lead one on to this path It can make a profound change in one's perspective The joy pouring from deep within is at the root of this reality Optical
