Vampires, Race, and Transnational Hollywoods Dale Hudson,2017-05-18 The figure of the vampire serves as both object and mode of analysis for more than a century of Hollywood filmmaking Never dying shifting shape and moving at unnatural speed as the vampire renews itself by drinking victims blood so too does Hollywood renew itself by consuming foreign styles and talent moving to overseas locations and proliferating in new guises In Vampires Race and Transnational Hollywoods Dale Hudson explores the

movement of transnational Hollywood's vampires between low budget quickies and high budget franchises as it appropriates visual styles from German, Mexican and Hong Kong cinemas and off shores to Canada, Philippines and South Africa. As the vampire's popularity has swelled, vampire film and television has engaged with changing discourses around race and identity not always addressed in realist modes. Here, teen vampires, comfort misunderstood youth, chador wearing skateboarder vampires promote transnational feminism. African American and Mexican American vampires recover their repressed histories. Looking at contemporary hits like *True Blood*, *Twilight*, *Underworld* and *The Strain*, classics such as Universal's *Dracula* and *Dracula* and miscegenation melodramas like *The Cheat* and *The Sheik*, the book reconfigures Hollywood historiography and tradition as fundamentally transnational, offering fresh interpretations of vampire media as trans genre sites for political contestation.

Reading the Vampire Ken Gelder, 2002-08-27 Insatiable bloodlust, dangerous sexualities, the horror of the undead, uncharted Transylvanian wildernesses and a morbid fascination with the other: the legend of the vampire continues to haunt popular imagination. *Reading the Vampire* examines the vampire in all its various manifestations and cultural meanings. Ken Gelder investigates vampire narratives in literature and in film from early vampire stories like Sheridan Le Fanu's lesbian vampire tale *Carmilla* and Bram Stoker's *Dracula*, the most famous vampire narrative of all, to contemporary American vampire blockbusters by Stephen King and others, the vampire chronicles of Anne Rice, post-Ceausescu vampire narratives and films such as FW Murnau's *Nosferatu* and Bram Stoker's *Dracula*. *Reading the Vampire* embeds vampires in their cultural contexts, showing vampire narratives feeding off the anxieties and fascinations of their times, from the nineteenth century perils of tourism, issues of colonialism and national identity and obsessions with sex and death to the queer identity of the vampire or current vampiric metaphors for dangerous exchanges of bodily fluids and AIDS.

The Vampire in Bram Stoker's "Dracula" and Stephenie Meyer's "Twilight" Series Katharina Wagner, 2020-07-09 Master's Thesis from the year 2020 in the subject English Language and Literature Studies, Literature grade 1-3, University of Cologne, Englisches Seminar I, language English. abstract: The allegation of the vampire's metamorphosis and the less frequent academic recognition of newer vampire fiction are what motivates this Thesis to examine the vampire yet once again. With the help of Bram Stoker's *Dracula* (1897) and Stephenie Meyer's *Twilight Series* (2005-2008), this paper will investigate the research question: if the vampire of older literary works and the vampire of newer literary works are in fact so different from each other as previous academic works suggest. Throughout the last years, a large number of new vampire fictions, television shows and movies emerged, and the vampire slowly gains a representation in academic works. Most of these works deal with the vampire's symbolic nature, his

function and what he represents but it is evident that older works get treated significantly different than newer ones and they almost never include the vampire's folkloric or real background. People of the academic works around the figure of the vampire will agree that a significant change in the vampire's nature between the nineteenth and the twenty-first century took place because while our ancestor's vampires such as human blood sucking Nosferatu or Dracula bring terror and evil to its people and are academically recognized far more often the vampires nowadays seem to be tamed sympathetic beings that utterly reject human blood.
