Simulation and Game-Based Learning in Emergency and Disaster Management

Drumhiller, Nicole K.,Wilkin, Terri L.,Srba, Karen V.,2021-04-02 Simulation and game based learning are essential

applications in a learning environment as they provide learners an opportunity to apply the course material in real life scenarios. Introducing real life learning allows the learner to make critical decisions at different points within the simulation, providing constructive education that leads to a cognitive understanding of the material. The use of simulations provides the learner with the ability to cognitively store and recall learning in real life experiences. Therefore, it is crucial to not only provide course material but to have students apply what they have learned in simulations that replicate real life scenarios. These learned skills are essential for students to be marketable and thrive in a career field where decision making, problem solving, and critical thinking are job requirements. *Simulation and Game Based Learning in Emergency and Disaster Management* is a cutting edge research book that examines the best practices and holistic development when it comes to simulation learning within emergency and disaster management as well as global security. Drawing upon the neuroscience of learning, classroom instruction can be enhanced to incorporate active experiential learning activities that positively impact a learner with long term information retention. Each simulation project is carried out in different environments with different goals in mind and developed under various constraints. For these reasons, this book will provide insight into the simulation planning and development process, provide examples of online simulations and game based learning activities, and provide insight on simulation development and implementation that can be used across disciplines in educational and training settings. As such, it is ideal for academicians, instructional designers, curriculum designers, education professionals, researchers, and students.

Make Money From Faceless YouTube Automation MRR By Khaled Baoween Khaled

Baoween, 2024-04-17. Faceless YouTube Automation MRR appears to refer to a concept or a business model related to generating Monthly Recurring Revenue (MRR) through automated YouTube content creation or management without revealing the creator's identity or showing their face on the platform. This could involve various strategies such as:

- Automated Content Creation:** Using software or algorithms to generate and upload videos automatically based on certain criteria like trending topics, keywords, or specific niches.
- Content Curation:** Curating existing videos from other creators or sources and compiling them into thematic playlists or channels.
- Monetization Strategies:** Implementing various monetization methods such as ads, sponsorships, affiliate marketing, or selling digital products/services related to the content niche.
- SEO and Marketing Automation:** Leveraging automation tools for search engine optimization (SEO), social media marketing, and audience engagement to drive traffic and increase visibility.
- Outsourcing and Delegation:** Hiring freelancers or virtual assistants to handle different aspects of content creation, management, and promotion.

The term "faceless" suggests that the creator prefers to remain anonymous or undisclosed, possibly to avoid personal branding or to maintain privacy. This approach allows focusing solely on the content and its profitability without associating it with a specific individual. MRR or Monthly Recurring Revenue is a key metric for subscription-based businesses, indicating the predictable revenue generated from subscriptions or recurring payments on a monthly basis. In the context of YouTube, it could refer to the consistent revenue generated from

ad monetization memberships or other recurring sources Combining automation with YouTube content creation can streamline processes scale operations and potentially generate passive income over time However it s essential to adhere to YouTube s policies and guidelines to ensure compliance and avoid penalties such as demonetization or account suspension
