Born-Digital Texts in the English

Language Classroom Saskia Kersten,Christian Ludwig,2024-06-11 This book is the first to focus specifically on born digital texts in EFL teaching uniting international and innovative scholarship with practical classroom applications The book develops a theoretically sound framework for curriculum materials and methods design that takes into account the growing ubiquity of born digital texts in the digital age It covers a broad variety of born digital text types including those generated by AI which so far have not been an explicit focus in the context of language teaching while also providing a grounding in current discussions around digital tools in education The chapters cover a wide range of issues from methodological approaches to born digital texts to curriculum syllabus and materials design The book will be a valuable introduction to the subject for trainee and practising teachers as well as teacher educators and students on EFL courses Chapter 7 is free to download as an open access publication under a CC BY licence and is available here <https://zenodo.org/records/11174197>
