Dimensions of Diversity, Equity, Inclusion, and Belonging in Business Harriott, Suzette A., 2024-12-18 The dimensions of diversity, equity, inclusion and belonging (DEIB) are crucial in shaping the modern business landscape, driving innovation and employee satisfaction. As organizations recognize the value of a diverse workforce, they are committed to fostering environments that prioritize representation, fairness, access and respect for all individuals. Diversity encompasses the unique backgrounds, experiences and perspectives that employees bring, while equity ensures fair treatment and opportunities for everyone regardless of their starting point. Inclusion creates spaces where all voices are heard and valued, and belonging emphasizes the deep, rooted sense of acceptance that motivates employees to be themselves at work. When effectively integrated, DEIB initiatives enhance organizational performance while cultivating a culture of trust, creativity and collaboration, positioning businesses for long-term success. *Dimensions of Diversity, Equity, Inclusion, and Belonging in Business* offers a curated and extensive exploration of these pivotal concepts, drawing from diverse global perspectives. It encompasses a broad spectrum of scholarly contributions from various geographical and cultural contexts, each meticulously dissecting and analyzing how DEIB is perceived, operationalized and navigated within differing societal frameworks. This book covers topics such as artificial intelligence, human resource management and workplace culture and is a useful resource for business leaders, researchers, academicians, policymakers, students and more.

Digital Technologies for Smart Business, Economics and Education Amina Omrane, Gouranga Patra, Sumona Datta, 2023-06-06 This book examines the application, challenges and opportunities related to the use of digital technologies in business, economics and education. In this context, the enclosed contributions identify the impact of artificial intelligence, machine learning, internet of things (IOT), computer vision, big data analytics and other advanced technology in the area of business, economics and education. The book examines such themes as digital technology for smart business, the progress of the circular economy, the application of IOT in

education the use of drones in agri business business forecasting using smart technology artificial intelligence in healthcare among others

INFLUENCE OVER AUTHORITY DERRICK SEKIZIYIVU,2025-06-22 In today's world authority alone no longer guarantees loyalty performance or respect What truly drives results is influence the ability to move people through trust clarity and purpose Influence Over Authority is a modern leadership guide designed for those who want to lead with impact not intimidation It challenges the traditional power driven models of leadership and offers a fresh practical approach rooted in emotional intelligence authentic communication and intentional influence Whether you're managing a small team or leading an entire organization this book helps you shift from being a boss to becoming a force people want to follow You'll uncover how to motivate without manipulation communicate with empathy and precision and build cultures of ownership not obligation It's about earning respect not demanding it and creating environments where people grow innovate and thrive because they want to not because they have to In a noisy distracted world real leadership is not about being the loudest in the room It's about being the most understood If you're ready to lead with authenticity clarity and lasting influence this book will show you how
