being able to communicate well in writing isn't just nice it's necessary And it's also the oft overlooked cornerstone of nearly all our content marketing In *Everybody Writes* top marketing veteran Ann Handley gives expert guidance and insight into the process and strategy of content creation production and publishing with actionable how to advice designed to get results These lessons and rules apply across all of your online assets like web pages home page landing pages blogs email marketing offers and on Facebook Twitter LinkedIn and other social media Ann deconstructs the strategy and delivers a practical approach to create ridiculously compelling and competent content It's designed to be the go to guide for anyone creating or publishing any kind of online content whether you're a big brand or you're small and solo Sections include How to write better Or for adult onset writers How to hate writing less Easy grammar and usage rules tailored for business in a fun memorable way Enough to keep you looking sharp but not too much to overwhelm you Giving your audience the gift of your true story told well Empathy and humanity and inspiration are key here so the book covers that too Best practices for creating credible trustworthy content steeped in some time honored rules of solid journalism Because publishing content and talking directly to your customers is at its heart a privilege *Things Marketers Write* The fundamentals of 17 specific kinds of content that marketers are often tasked with crafting *Content Tools* The sharpest tools you need to get the job done Traditional marketing techniques are no longer enough *Everybody Writes* is a field guide for the smartest businesses who know that great content is the key to thriving in this digital world *Freelance Blog Writing* Ken Bradford, 2014 Delivering quality web content is an indispensable part of online marketing Content marketing is the foundation of brand building whether you are a freelance writer or a large corporation Effective content marketing is much more than broadcasting information It's just a way of getting the conversation started The goal of web content writers must be to address an audience directly and personally We must be passionate about helping people acquire knowledge solve problems and achieve their goals For our content to have any impact it must deliver unique value to our readers *Writing Better Web Content* helps you analyze the quality in web content It helps you establish your voice in writing which is a critical part of creating and sustaining a brand or service It explores ideas to help you make better connections with your audience better optimize your articles for search engines and better promote your hard work in social media networks There are certainly a lot of books written about writing better web content The problem is that a lot of these books just give instructions and don't really go into any detail about how to apply those instructions to get better results The authors of *Writing Better Web Content* have not only provided ideas and techniques to help you become a better freelance writer but they have made suggestions as to how to apply these principles to make your passion for writing more enjoyable and more profitable **So You Think You Can Write?** Julia McCoy, 2016-04-18 Confused by the overload of blogs articles and guides that promise you everything you need to know on how to write for the web Not sure where to start with your blog and website from optimizing for search to creating the best headline Or how to take your writing skills to the next level and actually market yourself and make money
