**Artificial Intelligence Future Frontiers of Generative AI in Engineering** ,2025-10-15 [How AI Will Change Your Life](#) Patrick Dixon,2024-09-12 Artificial Intelligence will create gigantic benefits for humankind but will become more powerful than many governments with purposes and plans of its own and the ability to alter the very basis of life on earth Many believe that AI poses a threat to human dominance In this punchy follow up to his bestselling The Future of Almost Everything leading futurist Patrick Dixon has written an in depth but accessible exploration of AI looking at the future of the subject and assessing both threats and benefits from health and education to cybersecurity business and the world of work How AI Will Change Your Life looks at likely outcomes for both individuals and businesses in all areas of life and provides advice for the reader and a charter for governments to exploit the benefits and avoid the risks

**Writing and Editing for Digital Media** Brian Carroll,2025-12-12 An essential guide to writing and editing for digital media this sixth edition responds to the mainstreaming of genAI Generative AI and LLMs Large Language Models among many other changes in the best practices of digital storytelling Carroll explains and demonstrates how to effectively write for digital spaces and places that typically abound with graphical content multimedia and hypertextual interactive elements He also combines hands on practical exercises with information on key topics such as misinformation and disinformation and the proliferation of artificial intelligence This new edition specifically explores the ethical questions raised by AI as well as the new possibilities it presents Each chapter features lessons and exercises through which students can build a solid understanding of the ways that digital communication provides opportunities for dynamic storytelling and multi directional communication It also speaks to writers editors public relations practitioners and social media managers and marketers Updated with contemporary examples and new pedagogy throughout this is the ideal handbook for students seeking careers in digital media particularly in content development and digital storytelling It is an essential text for students of media communication public relations marketing and journalism who are looking to develop their writing and editing skills for these ever evolving fields and professions This book also has accompanying Support Material that offers additional weekly activities and assignments providing students additional opportunity to put theory into practice

**Cybersecurity in the Age of Artificial Intelligence** Pasi Koistinen,2025-07-12 Artificial intelligence has stopped knocking politely on the door of cybersecurity it has kicked it open set up shop inside and begun rewriting the rules From generative phishing emails

indistinguishable from trusted colleagues to adaptive malware that evolves faster than defenders can react AI has made the threat landscape faster smarter and far less predictable This book is a practical guide to that unsettling reality It doesn't trade in hype or hand waving optimism Instead it lays out in plain language how AI systems create new risks what happens when security practices built for deterministic software fail and why human vigilance and organizational discipline are more important than ever Inside you'll discover How attackers are already using AI to automate reconnaissance generate malicious code and industrialize social engineering at a scale no human team could match Why defending AI is a fundamentally different challenge with attack surfaces embedded in training data model weights and seemingly innocuous prompts How familiar safeguards like static rules perimeter defenses and blacklists fall apart when faced with systems that learn infer and sometimes hallucinate What it takes to design secure trustworthy AI systems from threat modeling and auditing pipelines to deploying explainable models that don't sacrifice accountability for convenience Written for security leaders engineers policymakers and technologists who recognize that the convergence of AI and cybersecurity isn't theoretical it's already operational this book offers a strategic roadmap for navigating a landscape where yesterday's defenses are no longer enough You'll explore real world case studies chatbots leaking confidential data with alarming politeness AI driven phishing campaigns that slip past even well trained employees and defensive models that fail silently because they can't explain their own reasoning Along the way you'll learn frameworks to separate the promising from the perilous the actionable from the aspirational Artificial Intelligence Cybersecurity isn't a manual for fine tuning models or a primer for beginners It assumes you already sense that something is shifting and provides the clarity examples and strategies to respond If you're responsible for securing critical systems or shaping the policies that govern them this book will help you ask better questions make better decisions and avoid the costly mistake of treating AI as just another line item in your technology stack Because in this new era the question isn't whether AI will reshape your security strategy The question is whether you'll be ready when it does

**Generative Video with AI\_ Step-by-Step Tips for Creators** Expert, Generative Video with AI\_ Step by Step Tips for Creators Unleash professional grade storytelling cinematic visuals and scalable content production with Generative Video with AI Step by Step Tips for Creators the definitive 2025 guide for filmmakers YouTubers marketers educators and digital artists who want to harness the power of AI driven video generation script automation visual synthesis and smart editing workflows Designed for both beginners and advanced creators this guide combines SEO rich keywords bolded techniques and action focused systems to help you create stunning videos faster cheaper and with unlimited creative freedom The AI Video Foundations Section introduces the core mechanics behind modern generative video technology You'll learn how tools like Runway Gen 2 Pika Labs Stability Video Sora style models and Kaiber produce motion sequences using latent diffusion keyframe interpolation multi frame prediction and prompt guided storyflow This section also explains essential concepts like fps control motion coherence consistency locking aspect ratio management and style

persistence preparing you to generate high quality results from day one In the Scriptwriting Narrative Automation Section you ll discover how to use ChatGPT Claude Notion AI and Gemini to create polished scripts storyboards character arcs scene descriptions and cinematic shot lists Learn frameworks for generating video hooks voiceover scripts dialogue generators and brand messaging templates that are perfectly aligned with your niche from YouTube tutorials and marketing ads to documentaries music videos and short films The Prompt Engineering for Video Section teaches you how to write cinematic prompts that produce sharp emotionally compelling sequences You ll learn prompt formulas for Character creation personality traits Camera movement cues dolly zoom tracking shot slow pan FPV Lighting atmosphere control Art styles realistic anime cyberpunk surreal minimalist photorealistic Color grading mood signatures Scene transitions multi shot storytelling This section includes before and after prompt examples style presets consistency hacks and negative prompts to eliminate distortions and flickering The Video Generation Workflows Section gives you step by step systems for producing complete videos Learn how to build a full pipeline from concept script scenes generation editing export using tools like Runway Gen 2 for scene generation Pika 1 0 for motion refinement Midjourney DALL E for concept art keyframe design Adobe Premiere Final Cut DaVinci Resolve for post production CapCut AI for social content ElevenLabs for voice generation Topaz Video AI for upscaling and frame stabilization Everything is broken down into easy repeatable templates In the Character Consistency Face Control Section you ll master techniques that ensure your characters stay consistent across scenes Learn how to use face reference images LoRA styles ID locking character model embedding and motion tracking to maintain identity clothing style and emotional continuity in long form videos This is essential for storytelling commercials and narrative series The AI Video Editing Enhancement Section shows you how to elevate raw generative footage into polished cinematic content Learn how to apply AI color grading motion smoothing frame interpolation lip sync alignment audio visual synchronization depth map enhancements green screen removal AI rotoscoping These techniques turn simple AI clips into professional grade scenes ready for publishing The Voice Sound Music Automation Section reveals how to integrate voice cloning AI narrators adaptive soundscapes and AI music generators Sunno AIVA Soundraw ElevenLabs RVC to build fully immersive audio layers Learn how to automate background noises cinematic scores dialogue and ambient effects with precision The Content Strategy Monetization Section teaches you how to turn your AI video mastery into real income Learn how creators profit through YouTube automation channels AI generated ads for clients Short form content studios Course creation educational videos TikTok Reels brand collaborations Stock video marketplaces Generative art licensing This section includes pricing models niche selection frameworks viral formula templates and strategies for long term growth In the Scaling Workflow Automation Section you ll learn how to automate entire video pipelines with tools like Zapier Make com Pipedream and Notion Systems Create end to end workflows where scripts scenes voiceovers and video edits generate automatically perfect for agencies studios and high volume creators Finally the Future of Generative Video Section explores

2025 trends like long form AI film generation 3D character engines volumetric capture digital actors interactive story generators virtual production and AI driven cinematography You ll understand where the industry is going and how to position yourself as an early expert Every chapter of Generative Video with AI is crafted with search optimized keywords actionable frameworks and creative workflows to help you produce stunning AI powered videos in record time By the end of this guide you ll have a fully automated professional grade video creation pipeline capable of producing cinematic content viral short form clips client ready ads and even AI directed films You won t just create videos You ll generate worlds
