Blogging for Profit Susan Elby, 2020-03-07 Introduction Do not listen to the naysayers who complain if you have not established yourself as an expert in the niche so even if the entire field saturated Shake it off and remember that trends change and evolve and so does the public need knowledge in research Therefore I guarantee that you can bring a new perspective to every niche and package in a way that is more attractive than what is already out there So keep that in mind let us why blogging is a useful exercise in 2019th1 You can make money from around the world There are restrictions on where and when you can blog As long as you have an internet connection and a laptop or a smartphone or tablet you are ready to begin While a great blog that has a loyal audience is created you can also earn money while you sleep Some bloggers become digital nomads because they have realized that blogging gives them the freedom to travel and still make money Some of them even live full time blogs because they earn enough money to support their lifestyle There are literally borders the capital you can make if you act intelligently 2 Tell your story online Blogging is not just to make money for everyone For some people it is therapeutic to put their life experiences real or imagined histories and other personal information online Some stories are meant to inspire educate and stimulate the mind and should be shared where everyone can see There is also a need to escape for many people so they turn to blogs and vlogs see below people living different lives to experience the adventure they see in their own lives There is a broad audience that is required to enjoy these stories and appreciate the sincerity
