Social Media Marketing Adidas Wilson, What Is Social Media Engagement? It is the number of shares, likes, and comments. A big following is great, but an engaged audience is better than a big one, quality over quantity. There are certain metrics used to measure social media engagement. They include: Use of branded hashtags, Mentions, Click-throughs, Audience and followers growth, Likes, Comments, Retweets, shares. Your followers can naturally start engaging with your content. But often you may need to encourage them a little. Here are a few tricks to help you with that. Assess your engagement: see how many followers you have, the average number of shares and comments you get on each post, and any other relevant numbers. Make sure you continue monitoring these numbers. Choose your strategy: every company has different goals and strategies, so they are thus different. Your strategy will depend on your goals. This could be educating the audience, collecting feedback, changing the public perception, etc. Understand your audience: it is not easy to engage people you do not know.
