And Sustainability In Agrifood Value Chains Isabelle Piot-Lepetit, Fatima El Hadad-Gauthier, 2025-03-04 Nowadays stakeholders of agrifood value chains are developing specific strategies regarding their sustainable transformations supported by digital technologies. These strategies are designing new activities within and outside the whole value chains and in each of their specific segments such as raw products, supplies and machinery production, transformation, transportation and logistics, distribution, retail and consumption. The strategies developed by agrifood stakeholders related to the digitalization for more sustainability of their practices and activities are changing the way stakeholders are interacting and fuel in one way or another new reconfigurations of value chains. Most often sustainability initiatives explore new value added activities, goods and services while digital initiatives acknowledge the opportunities resulting from the use of digital solutions such as sensors, the Internet of Things, e-commerce platforms, blockchain or robots and advanced data analytics based on big data, cloud computing technologies or artificial intelligence applications. Digital and sustainable transformations have been explored in the literature for some time now by considering either the changes involved in farms, companies and business activities or the necessary adjustments of the economic and regulatory environments. However, the setting up of strategies related to the digitalization for sustainable agrifood value chains has not often been investigated. **MSIEID 2022** Haocun Wu, Zhisheng Wang, Sikandar Ali Qalati, 2023-03-14 The Management Science Informatization and Economic Innovation Development Conference is a leading conference held annually. Far from being a passing trend, TikTok represents a revolution in how products and services are promoted and sold online. This is the second book in a series designed to explore the potential of social media platforms for sales. My name is Josu Matos, author of over 50 books, including *Rich Uncle Poor Nephews* and *The Art of Reinvention*. With a decade of experience in digital platforms and a Bachelor's degree in Advertising, Marketing, and Communications underway, I have dedicated my career to helping entrepreneurs succeed in the digital world.
