you what a digital nomad is and the realities of a Location Independent Business What is a digital nomad and why are there so many people who want to work this way A digital nomad is essentially a person who works for himself Many work at home mothers do this and are known as Full Time Gigs Others work as freelancers and do things a specific way like transcribing editing proofreading or programming However some digital nomads work for service companies and do things like web design web programming accounting creative writing or translation Those who work a digital nomad lifestyle do not work for a company or boss but instead work for themselves They set their own hours and follow their own rules It is difficult to be self employed in this society because you have to rely on the wills of others and your courage to set up your business However it is not impossible and there are different ways to be self employed which can provide you with more freedom and flexibility while still bringing in some money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now *How to Become a Digital Nomad* Annie Erling Gofus, Team TripScout, Konrad Waliszewski, 2017-06-27 How to Become a Digital Nomad is the most practical step by step guide to living a location independent digital nomad lifestyle regardless of your career while making money and doing the work you love This book is not written in the hypothetical It is not motivational and philosophical fluff It is not for backpackers who simply want to teach English It is not for the independently wealthy travelers or Instagram stars It is written by real digital nomads who have made a life and career doing what they love where they love doing it For those who like their job we provide an actionable guide to help you convince your employer and transition your work to be remote For those who don't like their job we will teach you how to find location independent jobs start a business earn money as a freelancer or consultant and sell your digital nomad lifestyle as a perk to potential clients customers or employers We dive in deep on the following topics Turn any skill into a location independent career Find a remote job or consulting freelance clients Start and run a business abroad Best places to travel and work as a digital nomad Co working spaces and digital nomad hubs communities around the world Organized digital nomad programs like Remote Year Visa
