Editorial, 2023-01-30 LIGHTNING PROMOTION When you think of freelancing what is the first thing that comes to your mind You probably think of a writer novelist or journalist right off hand That is primarily because for centuries the only real job you could have as a freelancer had to do with your mastery of the written word But we are not still stuck back in the early nineteen hundreds no we are in the twenty first century a time that appreciates freelancers in hundreds of different jobs Sure

you have probably heard of freelance photographers too you may have even met one or two in your life but what about freelance software designers freelance medical billing specialists or even freelance scientific researchers There are all jobs that have recently begun to see massive growth in their respective fields because more and more people are realizing that they can make far more money working for themselves as freelancers than they ever could solely from working under the wing of their previous employer

**Guide to Successful Online Freelancing** Neil Loyd,2021 When you think of freelancing what is the first thing that comes to your mind You probably think of a writer novelist or journalist right off hand That is primarily because for centuries the only real job you could have as a freelancer had to do with your mastery of the written word But we are not still stuck back in the early nineteen hundreds no we are in the twenty first century a time that appreciates freelancers in hundreds of different jobs Sure you have probably heard of freelance photographers too you may have even met one or two in your life but what about freelance software designers freelance medical billing specialists or even freelance scientific researchers There are all jobs that have recently begun to see massive growth in their respective fields because more and more people are realizing that they can make far more money working for themselves as freelancers than they ever could solely from working under the wing of their previous employer So it sounds pretty good doesn't it You work in some field for quite a few years get a lot of practical experience in your chosen area of employment and then gradually make the switch from working the nine to five to becoming your own boss as a freelancer But is it really as easy as it sounds to become a freelancer and actually make a living doing work on a freelance basis We have to keep in mind that there are quite a few freelancers out there who are only doing work part time
