## **Dogs And Demons The Fall Of Modern Japan:**

**Dogs and Demons** Alex Kerr, 2002     *Dogs and Demons* Alex Kerr, 2001 An analysis of modern day Japan explores the negative side of the country's economic prosperity from drab architecture to the failure of bureaucratic systems     **Japan's Foreign Policy, 1945-2009** Kazuhiko Tōgō, 2010 This book stands out amongst the crop of textbooks on Japanese foreign policy that have been available to date because of its authoritative insider voice Here we not only learn what happened in postwar Japan's foreign policy but what the thinking was behind these decisions This is an invaluable element that brings the reader inside the policy making rooms of the Ministry of Foreign Affairs itself In the process Japan's world view and its own self image are concurrently revealed in fascinating and unexpected ways This book destroys stereotypes and vastly improves the quality of our understanding of Japan as an international player We are spoiled by the wisdom and experience of not just one but three major forces in the shaping of Japan's international existence Mr Togo's own formidable experience plus the seminal contributions of his father and grandfather who was instrumental in the closing phases of World War II All of this makes this book indispensable to those who wish to truly understand Japan in her own terms and through her own eyes Rikki Kersten Professor Modern Japanese Political History Australian National University Ambassador Togo's distinctive account of Japanese foreign policy highlights the impact of the vacuum left by the humiliation of defeat in 1945 It bears witness to the intellectual and diplomatic challenge of finding answers to unresolved issues including managing the U S alliance and enhancing cooperation in Asia Updated to cover the results of the 2009 victory of the Democratic Party of Japan this book shows how its change of course fits into a long term narrative In contrast to more impersonal often unsympathetic analysis of Western authors and the self serving writing of many Japanese Togo offers a guide to Japan's quest not a defense of its choices The result is a wide ranging look at foreign policy over more than 60 years seen from the perspective of an insider attentive to a proud nation's search for its bearings Gilbert Rozman Musgrave Professor of Sociology Princeton University

Arthouse Crime Scenes Geoff King, 2024-11-14 Arthouse Crime Scenes is the first book to address the relationship between art cinema and crime contributing to the study of both categories Case studies are provided of works by celebrated filmmakers including Lucretia Martell Kleber Mendonça Filho Bong Joon Ho Nuri Bilge Ceylan Hirokazu Koreeda Jia Zhangke Andrey Zvyagintsev and Lee Chang-dong How is crime represented in art cinema And how can this be understood in the context of global sociopolitical and film industrial trends Arthouse crime scenes draw on variable combinations of elements associated with art cinema and crime genres Crime might be shown or lurk only at the edges It might be left unresolved or unexplained Crime can be petty and small scale or raise big questions associated with the arthouse sector political issues the nature of humanity truth and knowability In this book close textual analysis is combined with focus on social and industrial contexts A recurring theme is the situation of arthouse crime films within differing manifestations of broader processes of late modern neoliberal globalization and cultural hybridity Approaches examined range from the oblique to social realism and

other mixtures of crime and arthouse tendencies      **The City, Second Edition** James A. Clapp, 2014-02-10 The City is the best funniest saddest and most thought provoking compilation ever assembled on the urban scene James A Clapp has arranged more than three thousand quotations epigrams epithets verses proverbs scriptural references witticisms lyrics literary references and historical observations on urban life from antiquity until the present These quotes are drawn from the written and spoken words of more than one thousand writers throughout history This volume with contributions from speakers poets song writers politicians philosophers scientists religious leaders historians social scientists humorists architects journalists and travelers from and to many lands is designed to be used by writers speechmakers students and scholars on cities and urban life Clapp s text is striking for its sharp contrasts of urban and rural life and the urbanization process in different historical times and geographical areas This second edition includes four hundred new entries updated birth dates and occupations of quoted authors and an expanded and updated introduction and preface Clapp also added new introduction pages for each section containing pictures and unique quotations The indexes have also been expanded to include more subjects and cities The scope of this book is international including entries on most major and many minor cities of the world It is noteworthy for its pleasures and as well as its insights      [Japan-Bashing](#) Narrelle Morris, 2013-01-11 The aim of this book is to examine and analyse the phenomenon of Japan bashing from its invention and popularisation in the United States in the late 1970s to the emergence of other national variants including in Australia and Japan to its gradual decline in the late 1990s It is the first major book length study of Japan bashing from a multinational perspective one that attempts to place Japan bashing in its proper historical context and to examine its operation and legacy in the twenty first century Despite its importance in the study of discourses about Japan as well as in understanding broader global changes in the late twentieth century and beyond the phenomenon of Japan bashing remains largely neglected in published writings Moreover it is a far more complex phenomenon than has been assessed thus far While on first glance Japan bashing merely seems to recall other periods in which Japan has been viewed as a dangerous other to the West such as the Western emphasis on the yellow peril from the late nineteenth century as well as Allied anti Japanese propaganda during World War II Japan bashing also had its own distinctive characteristics Moreover while Japan bashing is often described as a quaint historical rather than a pressing contemporary phenomenon it is actually by no means extinct The ongoing influence of Japan bashing also has parallels in other bashing phenomena such as China bashing This book will be of interest to scholars and postgraduate students in Japanese studies and international relations      *Geisha* John Gallagher, 2003 Japan s geisha have fascinated and allured westerners for centuries But just who are geisha This book delves into their lives and history with detailed coverage of their training their costumes and the intricate world of tradition in which they live and work This finely illustrated book looks at the gradations of rank clothing and makeup as well as the subtle changes of geisha appearance through the seasons It explores the network of dance schools teahouses temples offices and traditional crafts with

calligraphers dyers and sake warmers among the many occupations serving in the hanamachi or flower towns as geisha districts are known The geisha craft itself draws on an array of traditional Japanese arts dance tea ceremony traditional music and games all in the service of leisure This book explains how this complex and often misunderstood world evolved how it fits into modern Japan and how it is adapting in order to survive there From publisher description      **Asian Data Privacy Laws** Graham Greenleaf,2014-10-16 The first work to examine data privacy laws across Asia covering all 26 countries and separate jurisdictions and with in depth analysis of the 14 which have specialised data privacy laws Professor Greenleaf demonstrates the increasing world wide significance of data privacy and the international context of the development of national data privacy laws as well as assessing the laws their powers and their enforcement against international standards The book also contains a web link to an update to mid 2017      **The City** James A. H. Havens,2011 Thomas Havens shows how revolutionary officials in the 1870s seized private properties and converted them into public parks for educating and managing citizens in the new emperor sanctioned state Rebuilding Tokyo and Yokohama after the earthquake and fires of 1923 spurred the spread of urban parklands both in the capital and other cities According to Havens the growth of suburbs the national mobilization of World War II and the post 1945 American occupation helped speed the

creation of more urban parks setting the stage for vast increases in public green spaces during Japan's golden age of affluence from the 1960s through the 1980s. Since the 1990s the Japanese public has embraced a heightened ecological consciousness and become deeply involved in the design and management of both city and natural parks, realms once monopolized by government bureaucrats. As in other prosperous countries, public-private partnerships have increasingly become the norm in operating parks for public benefit, yet the heavy hand of officialdom is still felt throughout Japan's open lands.

**The Security Intersection** Greg Mills, 2005. The rising influence of non-state actors in the management of international relations reflects both the increasing importance of economic affairs in a rapidly integrating and financially interdependent world and the emergence of so-called new issues that have to be factored into any foreign policy: the promotion of human rights and democracy, humanitarian concerns, drug abuse and trafficking, the spread of contagious diseases including HIV/AIDS, transnational crime, the safeguarding of the environment, poverty, the combating of terrorism, the proliferation of weapons of mass destruction, illegal weapons trafficking, and issues surrounding gender equality. *Security Intersection* offers an analysis of the policy options we might employ in providing and managing local, regional, and global security and examines the security issues involved in nation building, especially with regard to Iraq, but also concerning intervention elsewhere and security issues with regard to terrorism.
