Doha and Beyond Mike Moore, 2004-02-26 Publisher Description Making Global Trade Governance Work for Development Carolyn Deere Birkbeck, 2011-08-18 Discussion of the governance of global trade and the multilateral trading system is too often dominated by developed country scholars and opinion makers with inadequate attention given to developing country perspectives Making Global Trade Governance Work for Development gathers a diversity of developing country views on how to improve the governance of global trade and the WTO to better advance sustainable development and respond to the needs of developing countries With contributions by senior scholars commentators and practitioners the essays combine new empirically grounded research with practical insights about the trade policy making process They consider the specific governance issues of interest to developing countries and acknowledge the changing dynamics in the global economy and in trade decision making **Trade, Doha, and Development** Richard S. Newfarmer, 2006 The role of trade in promoting international development is becoming increasingly important in our globalised world and the global trading system has the potential to help the world's poor if trading inequities can be remedied This publication examines the key trade issues relevant to the ongoing multilateral trade negotiations and the evolution of the world trading system as a means to address barriers to growth in developing countries focusing on the Doha Round Issues discussed include potential gains from trade liberalisation for developed and developing countries reforming trade in agriculture as a key to the success of the Doha Round markets for manufacturing and services trade facilitation TRIPs and the regulatory agenda the role of regional trade agreements and issues of aid for trade in order to help low income countries develop the infrastructure needed to participate in the global economy and benefit from new market opportunities **South African Foreign Policy Review: Volume 1**, 2012 **South African Foreign Policy Review: Volume 1** Chris Landsberg, Jo-Ansie van Wyk, 2012-12-27 The richness of public and academic discourses on the past present and future direction of South Africa's role in Africa and the world suggests that as a sub discipline of politics South African foreign policy is ready for a systematic and regular appraisal in the form of a series of publications that the Institute for Global Dialogue will call South African Foreign Policy Review This is also because constant changes in international and domestic circumstances impinge on the management and analysis of South Africa's foreign policy This the first review provides an important opportunity to build on existing foreign policy works in order to take stock of the road already travelled in the past decade or so This is crucial in laying some basis for anticipating the country's future role and considering the opportunities and challenges which future volumes of the review will consider This volume provides a wide ranging appraisal of the relationship between stated foreign policy goals and actual outputs and outcomes an assessment of how foreign policy has actually been operationalized and implemented To this end common themes in South African foreign policy provide the framework for the first review These include foreign policy decision making soft power dynamics in the foreign policy's strategic calculus diplomatic tools used economic diplomacy

peace diplomacy and paradiplomacy South Africa's relations with key states in Africa in the global south and in the global north South Africa's approach to Africa multilateral global multilateralism governance The review hopes to stimulate further discussion and thinking on the challenges confronted and the future shape and direction of South Africa's foreign policy
