The Tiger Roars Christian Omlin, 2014-01-16 The poems in this collection were part of a healing journey without any filtering by the mind they brought with them insights incredible peace and a new way of living The choice of topics for this anthology was not haphazard The main challenge of this journey was to come to grips with emptiness that seems ubiquitous in this world and the realization that people's emptiness is theirs to own and live with As this insight grew it was necessary to find sources of richness in the world in order to find balance awareness emerged as the main sources of joie de vivre Early poems on hope and faith pointed the way into the future and built the foundation for acceptance and a new way of living The final topic of love and soul was very unexpected as it developed as the result of a wonderful change in my life Through an extraordinary and unlikely chain of events I met an amazing generous warm kind and strong woman who is full of joy love laughter and passion for life Within only a few weeks I came to realize that she was my soulmate I never knew that such a love could exist This anthology is thus also the story of this meeting The crisis and its

subsequent miraculous resolution and journey have redirected my life and my relationships in surprising new ways giving me new energy new confidence and new purpose

United States of America V. Kerner, Jr, 1989

The Strange Connection Bevin Alexander, 1992-03-23 This book provides an analysis of American intervention in China from World War II to the rapprochement Richard Nixon began in 1972 One of the major themes of the work is that the United States should avoid judging China by Western standards The United States learned this after twenty eight years of attempting to impose its own standards of democratic representative government on China Alexander also contends that the United States acted against its own interests when it supported the Nationalists and that the United States accused the Chinese Communists of aggressive policies in East Asia when in fact they did not pursue aggressive policies The book traces the origins of the American interest in China based on Roosevelt s hope to use China as a partner of the United States to preserve the peace in East Asia It covers the U S failure to realize that most Chinese people supported the Communist revolution and the U S attempt to keep the reactionary Nationalists in power after they lost the Civil War Next the work considers the misconception that Red China was an instigator of the Korean War the U S attempt to destroy the North Korean state and China s decision to intervene to prevent American forces from proceeding to

its frontier The text also traces the adoption of Taiwan as an American protectorate the flirtation with atomic war to protect the Nationalist held islands of Quemoy and Matsu and the decades long U S policy of denying Communist China a seat at the UN The work concludes with Nixon s decision to recognize China because U S policy was threatening world peace and order
