Donald Judd Architektur:

Donald Judd. Architektur, 1991 *Donald Judd* Donald Judd, 2019-07-23 One of the most important American artists of the post war period Donald Judd has come to define Minimalist art a label he strongly objected to His unaffected straightforward approach and strong interest in colour form material and space allowed him to create work with a direct material and physical presence without recourse to grand philosophical statements **Donald Judd - Architecture** Peter Noever, 2003 **Open Enclosed: Donald Judd** Gillermo, 2016-10-01 Taking Specific Objects the seminal text written by Judd in the mid sixties as the central theme the author analyzes the artist s main concepts and his whole career from a new perspective what one seeks is an object that speaks of the world in which it is moving or of the world from which it is moving away One searches for a boundary work a frontier that says simultaneously where it is coming from and where it is going a work in which interests overlap A work that will function as a mark or a crossroads locating this work is the first exercise

Donald Judd Donald Judd, Rudi Fuchs, Pace Gallery, 1993 **Donald Judd Writings** Donald Judd, 2016-11-22 With hundreds of pages of new and previously unpublished essays notes and letters Donald Judd Writings is the most comprehensive collection of the artist's writings assembled to date This timely publication includes Judd's best known essays as well as little known texts previously published in limited editions Moreover this new collection also includes unpublished college essays and hundreds of never before seen notes a critical but unknown part of Judd's writing practice Judd's earliest published writing consisting largely of art reviews for hire defined the terms of art criticism in the 1960s but his essays as an undergraduate at Columbia University in New York published here for the first time contain the seeds of his later writing and allow readers to trace the development of his critical style The writings that followed Judd's early reviews are no less significant art historically but have been relegated to smaller publications and have remained largely unavailable until now The largest addition of newly available material is Judd's unpublished notes transcribed from his handwritten accounts of and reactions to subjects ranging from the politics of his time to the literary texts he admired most In these intimate reflections we see Judd's thinking at his least mediated a mind continuing to grapple with questions of its moment thinking them through changing positions and demonstrating the intensity of thought that continues to make Judd such a formidable presence in contemporary visual art Edited by the artist's son Judd Foundation curator and co president Flavio Judd and Judd Foundation archivist Caitlin Murray this volume finally provides readers with the full extent of Donald Judd's influence on contemporary art art history and art criticism **Donald Judd Spaces** Judd Foundation, 2025-12 This book presents an unprecedented visual survey of the living and working spaces of the artist Donald Judd in New York and Texas Filled with newly commissioned and previously unpublished archival photographs alongside five essays by the artist this book provides an opportunity to explore Judd's personal spaces which are a crucial part of this revered artist's oeuvre From a 19th century cast iron building in Manhattan to an extensive ranch in the mountains of western Texas this book details the interiors exteriors and land surrounding the buildings that comprise Judd's extant living and working spaces Readers will discover how Judd developed the concept of permanent installation at Spring Street in New York City with artworks furniture and decorative objects striking a balance between the building's historic qualities and his own architectural innovations His buildings in Marfa Texas demonstrate how Judd reiterated his concept of integrative living on a larger scale extending to the reaches of the Chinati Mountains at Ayala de Chinati his 33 000 acre ranch south of the town Each of the spaces was thoroughly considered by Judd with resolute attention to function and design From furniture to utilitarian structures that Judd designed himself these residences reflect Judd's consistent aesthetic His spaces underscore his deep interest in the preservation of buildings and his deliberate interventions within existing architecture **Art [plus] Design, Donald Judd**

,1993 *Donald Judd : art + design* Donald Judd,1993 *Towards Universality* Richard Padovan,2013-07-04 There is no shortage of books about Le Corbusier or Mies van der Rohe or De Stijl However this book considers them in relation to each other observing how a study of one can illuminate the works of the others Going beyond a superficial look at the end products of these architects this book examines the philosophical foundations of their work taking as its central theme the aim of universality as opposed to the individual and the particular Each of these three aimed at universality but for each this concept took on a different form The universality of De Stijl and artists like Van Doesburg and Mondrian resembled that of the universe itself it was boundless going beyond the limits of the canvas and seeking to abolish the wall as the boundary between interior and exterior space In contrast each of Le Corbusier's creations was a self contained universe within a clear frame while Mies fluctuated between these two perspectives *The Routledge Companion to Women in Architecture* Anna Sokolina,2021-06-28 The Routledge Companion to Women in Architecture illuminates the names of pioneering women who over time continue to foster shape and build cultural spiritual and physical environments in diverse regions around the globe It uncovers the remarkable evolution of women's leadership professional perspectives craftsmanship and scholarship in architecture from the preindustrial age to the present The book is organized chronologically in five parts outlining the stages of women's expanding engagement leadership and contributions to architecture through the centuries It contains twenty nine chapters written by thirty three recognized scholars committed to probing broader topographies across time and place and presenting portraits of practicing architects leaders teachers writers critics and other kinds of professionals in the built environment The intertwined research sets out debates questions and projects around women in architecture stimulates broader studies and discussions in emerging areas and becomes a catalyst for academic programs and future publications on the subject The novelty of this volume is in presenting not only a collection of case studies but in broadening the discipline by advancing an incisive overview of the topic as a whole It is an invaluable resource for architectural historians academics students and professionals Donald Judd Donald Judd,Marianne Stockebrand,1992 **Donald Judd, Colorist** Donald Judd,Dietmar Elger,2000 Artwork by Donald Judd Contributions by Martin Engler William Agee Text by Dietmar Elger *American Artists Engage the Built Environment, 1960-1979* Susanneh Bieber,2023-07-31 This volume reframes the development of US American avant garde art of the long 1960s from minimal and pop art to land art conceptual art site specific practices and feminist art in the context of contemporary architectural discourses Susanneh Bieber analyzes the work of seven major artists Donald Judd Robert Grosvenor Claes Oldenburg Robert Smithson Lawrence Weiner Gordon Matta Clark and Mary Miss who were closely associated with the formal aesthetic innovations of the period While these individual artists came to represent diverse movements Bieber argues that all of them were attracted to the field of architecture the work of architects engineers preservationists landscape designers and urban planners because they believed these practices more directly shaped the social and material spaces of everyday life This book's contribution to the field of art

history is thus twofold First it shows that the avant garde of the long 1960s did not simply develop according to an internal logic of art but also as part of broader sociocultural discourses about buildings and cities Second it exemplifies a methodological synthesis between social art history and poststructural formalism that is foundational to understanding the role of art in the construction of a more just and egalitarian society The book will be of interest to scholars working in art history architecture urbanism and environmental humanism **Donald Judd - Architektur** Donald Judd, Westfälischer Kunstverein, 1989 **Enrico Castellani, Dan Flavin, Donald Judd, Günther Uecker** Haunch of Venison (Gallery), Enrico Castellani, Adachiara Zevi, 2009 Published by haunch of Venison on the occasion of the exhibition at Haunch of Venison Enrico Castellani Dan Flavin Donald Judd Gunther Uecker London 10 September 31 October 2009 **Kuntz + Design Donald Judd**, 1993
