 collection of folksongs describes the history society culture and events characteristic of all fifty states Unlike all other state
 folksong collections this one does not focus on songs collected in the particular states but rather on songs concerning the life
 and times of the people of that state The topics range from the major historical events such as the Boston Tea Party the
 attack on Fort Sumter and the California Gold Rush to regionally important events such as disasters and murders labor
 problems occupational songs ethnic conflicts Some of the songs will be widely recognized such as Casey Jones Marching
 Through Georgia or Sweet Betsy from Pike Others less familiar have not been reprinted since their original publication but
 deserve to be studied because of what they tell about the people of these United States their loves labors and losses and their
 responses to events The collection is organized by regions starting with New England and ending with the states bordering
 the Pacific Ocean and by states within each region For each state there are from four to fifteen songs presented with an
 average of 10 songs per state For each song a full text is reprinted followed by discussion of the song in its historical context
 References to available recordings and other versions are given Folksongs such as those discussed here are an important tool
 for historians and cultural historians because they sample experiences of the past at a different level from that of
 contemporary newspaper accounts and academic histories These songs in a sense are history writ small *Black*
